THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 322 thereof, in conjunction with the Treaty establishing the European Atomic Energy Community, and in particular Article 106a thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the Court of Auditors ⁽¹⁾,

Acting in accordance with the ordinary legislative procedure ⁽²⁾,

Whereas:

(1) Council Regulation (EC, Euratom) No 1605/2002 of 25 June 2002 on the Financial Regulation applicable to the general budget of the European Communities ⁽³⁾ has been substantially amended several times. Since further amendments are to be made, including changes to take account of the entry into force of the Treaty of Lisbon, Regulation (EC, Euratom) No 1605/2002 should be repealed and replaced by this Regulation, in the interests of clarity.

(2) Regulation (EC, Euratom) No 1605/2002 laid down the budgetary principles and financial rules governing the establishment and implementation of the general budget of the Union (the "budget"), ensuring sound and effective management, control and protection of the Union's financial interests and increasing transparency, that are to be respected in all legal acts and by all institutions. The fundamental principles, the concept and the structure of that Regulation and the basic rules of budgetary and financial management should be maintained. Derogations to those fundamental principles should be reviewed and simplified as far as possible, taking into account their continuing relevance, their added-value for the budget, and the burden they impose on stakeholders. It is necessary to maintain and strengthen the key elements of the financial rules: the role of the financial actors, the integration of controls in operational services, the internal auditors, activity-based budgeting, the modernisation of accounting principles and rules, and the basic principles for grants.

(3) Due to the specific nature and tasks of the European Central Bank (ECB), in particular its independence as regards the management of its finances, it should be excluded from the scope of this Regulation, except where otherwise provided for in this Regulation.

(4) In the light of practical experience, rules should be included in this Regulation in order to follow evolving requirements of budget implementation such as co-financing with other donors, to increase the efficiency of external aid, to facilitate the use of specific financial instruments including those concluded with the European Investment Bank (EIB) and to facilitate budget implementation through public-private partnerships ("PPPs").

(5) Regulation (EC, Euratom) No 1605/2002 was confined to stating broad budgetary principles and financial rules in line with the Treaties while the implementing provisions were laid down in Commission Regulation (EC, Euratom) No 2342/2002 of 23 December 2002 laying down detailed rules for the implementation of Council Regulation (EC, Euratom) No 1605/2002 ⁽⁴⁾ in order to produce a better hierarchy of rules and make Regulation (EC, Euratom) No 1605/2002 easier to read. Under Article 290 TFEU a legislative act may delegate to the Commission the power to adopt non-legislative acts only to supplement or amend certain non-essential elements of that legislative act. As a consequence, some provisions laid down in Regulation (EC, Euratom) No 2342/2002, should be incorporated into this Regulation.

(6) Police and judicial cooperation in criminal matters have become an integral part of other Union policies and internal actions. The specific financial provisions applicable to that policy area are thus no longer justified and should therefore not be included in this Regulation.

(7) In order to ensure transparency, the budget should record guarantees for borrowing-and-lending operations entered into by the Union, including the European Financial Stability Mechanism and Balance of Payment Facility operations.

(8) The existing rules governing interest generated by pre-financing payments should be simplified as they generate an excessive administrative burden both for recipients and Commission services and create misunderstandings between Commission services and recipients. In the interests of simplification, in particular with regard to beneficiaries, and in accordance with the principle of sound financial management, there should no longer be an obligation to generate interest on pre-financing payments and to recover such interest. However, it should be possible to include such an obligation in a delegation agreement in order to allow the re-use of interest generated by pre-financing payments for the programmes, the deduction of such interest from the payment requests or its recovery.

(9) Carry-over rules for assigned revenue should take into account the distinction between external and internal assigned revenue. In order to comply with the purpose assigned by the donor, external assigned revenue should be carried over automatically and used until all the operations relating to the programme or action to which it is

assigned have been carried out. Where the external assigned revenue is received during the last year of the programme or action, it should also be possible to use it in the first year of the succeeding programme or action. It should be possible to carry over internal assigned revenue for one year only, except where this Regulation provides otherwise.

- (10) The rules regarding provisional twelfths should be clarified with regard to both the number of additional twelfths that may be requested, and the cases where the European Parliament decides to reduce the amount of the additional expenditure in excess of the provisional twelfths adopted by the Council.
- (11) The derogation from the principle of universality concerning assigned revenue should be modified to take into account the specificities of, on the one hand, internal assigned revenue which arises from appropriations authorised by the European Parliament and the Council, and, on the other hand, external assigned revenue which is collected from and assigned by various donors to a specific programme or action. Furthermore, external donors should be allowed to co-finance external action, in particular humanitarian operations, even in cases where the basic act does not expressly provide for such co-financing.
- (12) The presentation of assigned revenue in the draft budget should be made more transparent by providing that amounts of assigned revenue are to be included in the draft budget for the amounts which are certain at the date of the establishment of the draft budget.
- (13) As regards the principle of specification, since no distinction is now made between compulsory and non-compulsory expenditure, the rules governing transfers of appropriations should be adapted accordingly.
- (14) The rules governing transfers of appropriations should also be adapted to the changes resulting from the entry into force of the Treaty of Lisbon. In addition, recent experience has shown the importance of increasing flexibility for end-of-the-year transfer of payment appropriations, in particular for structural funds. It is necessary to ensure better budget implementation, especially in relation to payment appropriations, assigned revenue and administrative appropriations that are common to several titles. To that end, the typology of transfers should be simplified and the adoption procedure of some transfers should be more flexible. In particular, it has proven to be relevant and efficient for the Commission to have the possibility of deciding on transfers of unused appropriations in cases of international humanitarian disasters and crises. That possibility should therefore be extended to similar events occurring after 1 December of a financial year. In such cases, for reasons of transparency, the Commission should inform the European Parliament and the Council immediately of its decision to transfer unused appropriations.
- (15) Concerning provisions on sound financial management, the authorising officer by delegation should take account of the expected level of risk of error and cost and benefits of controls when preparing legislative proposals and when setting up the respective management and control systems. The authorising officer by delegation should report on the results of controls, and their costs and benefits in the annual activity report. Management declarations on such systems submitted by the bodies designated by the Member States to be responsible for the management and control of Union funds, are integral to the effectiveness of national management and control systems.
- (16) The principle of transparency, enshrined in Article 15 TFEU which requires the institutions to work as openly as possible, implies, in the area of the implementation of the budget, that citizens are able to know where, and for what purpose, funds are spent by the Union. Such information fosters democratic debate, contributes to the participation of citizens in the Union's decision-making process and reinforces institutional control and scrutiny over Union expenditure. Such objectives should be achieved by the publication, preferably using modern communication tools, of relevant information concerning final contractors and beneficiaries of Union funds which takes into account such contractors' and beneficiaries' legitimate interests of confidentiality and security and, as far as natural persons are concerned, their right to privacy and the protection of their personal data. Institutions should therefore adopt a selective approach in the publication of information, in accordance with the principle of proportionality. Decisions to publish should be based on relevant criteria in order to provide meaningful information.
- (17) In accordance with Article 316 TFEU, the European Council and the Council should share the same section in the budget.
- (18) The annual budgetary procedure under the TFEU should be reflected in this Regulation.
- (19) With regard to the establishment of the budget, it is important to clearly define the structure and the presentation of the draft budget drawn up by the Commission. The content of the general introduction preceding the draft budget should be described more precisely. It is also necessary to include a provision on financial programming for future years as well as a provision on the possibility for the Commission to submit working documents to support budget requests.
- (20) With regard to the specific features of the Common Foreign and Security Policy, the forms which basic acts can take under the TFEU and under Title V and VI of the TEU should be updated. In addition, the adoption procedure for preparatory measures in the area of external action should be adapted to the TFEU.

- (21) The rules on methods of implementation of the budget, which govern in particular the conditions of externalisation of implementing powers to third parties, have become too complex over the years and should be simplified. At the same time, the initial objective of externalisation, namely that whatever the method of implementation, expenditure is implemented with a level of control and transparency equivalent to that expected from the Commission services, should be maintained.
- (22) A clear distinction should be made between situations in which the budget is implemented directly, by the Commission or its executive agencies, situations in which the budget is implemented by Member States under shared management and situations in which the budget is implemented indirectly through third parties. This should allow for the establishment of a harmonised regime for shared and indirect management which can be adapted in accordance with sector-specific rules, in particular where the budget is implemented by Member States under shared management. Such a harmonised regime should include in particular the basic principles to be respected by the Commission when it decides to implement the budget under shared management or indirectly and the basic principles to be respected by parties entrusted with budget implementation tasks. The Commission should be able to apply Union rules and procedures or to accept the application of the rules and procedures of the entrusted party, provided the latter guarantees an equivalent protection of the Union's financial interests. As part of the supervision tasks of the Commission, it is also necessary to provide for a set of control and audit obligations, including the examination and acceptance of accounts, for all methods of implementation.
- (23) Rules on *ex ante* assessment of entities and persons entrusted with budget implementation tasks under indirect management, should be adapted to ensure that all entrusted entities and persons provide a level of protection of the Union's financial interests equivalent to that required under this Regulation.
- (24) The experience of having PPPs institutionalised as Union bodies under Article 185 of Regulation (EC, Euratom) No 1605/2002 demonstrates that additional categories of PPPs should be provided for in order to increase the choice of instruments and include bodies whose rules are more flexible and accessible for private partners than those applicable to the Union institutions. Those additional categories should cover bodies governed by the private law of a Member State and bodies that are established by a basic act and which have financial rules that respect the principles necessary to ensure sound financial management of Union funds.
- (25) For the purposes of Article 317 TFEU, this Regulation should strengthen Member States' basic control and audit obligations where they implement the budget under shared management, since such obligations currently exist only in sector-specific rules. It is necessary, therefore, to include provisions, setting out a coherent framework for all policy areas concerned, on harmonised administrative structures at national level. That framework should not create any additional control structures but should allow the Member States to designate bodies entrusted with the management and control of Union funds. Furthermore, this Regulation should contain provisions on common management and control obligations for those structures, the annual management declaration by which managers assume the responsibility for the management of Union funds they are entrusted with, examination and acceptance of the accounts, and suspension and correction mechanisms operated by the Commission in order to create a coherent legislative framework which also improves the overall legal certainty and efficiency of controls and remedial action, as well as the protection of the Union's financial interests. Detailed provisions should remain in sector-specific Regulations. Within the context of the single audit approach and with the objective of reducing additional administrative burden stemming from multiple controls, Member States may provide the Commission with declarations, signed at the appropriate national or regional level in accordance with their respective constitutional requirements.
- (26) Some provisions regarding the duties of the authorising officer by delegation should be clarified, in particular those concerning the *ex ante* and *ex post* controls that the authorising officer by delegation puts in place as well as the latter's reporting duties. In this respect, the content of the authorising officer by delegation's annual activity report should be updated in line with practice which consists of including therein the required financial and management information to support the authorising officer by delegation's declaration of assurance on the performance of his or her duties.
- (27) The responsibilities of the accounting officer of the Commission should be clarified. In particular, it should be specified that the accounting officer of the Commission is the only person who is entitled to define the accounting rules and harmonised charts of accounts, while accounting officers of all other institutions define accounting procedures applicable in their institutions.
- (28) In order to facilitate the implementation of certain programmes or actions entrusted, in particular, to financial institutions, the possibility of opening fiduciary accounts should be provided for in this Regulation. Such bank accounts should be opened in the name, or on behalf, of the Commission in the books of a financial institution. They should be managed by that financial institution under the responsibility of the authorising officer and it should be possible to open them in currencies other than euro.
- (29) Concerning revenue operations, it is necessary to streamline the rules on estimates of amounts receivable in order to take into account budgetary needs. Registration should be required when an expectation of revenue has a certain degree of probability and can be translated into figures with a reasonable degree of approximation. In the interests of simplification, some specific provisions on procedures of adjustment or cancellation of an estimate of amount receivable should be introduced.

- (30) The rules on recovery should be both clarified and strengthened. In particular, it should be specified that the cancellation of an established amount receivable does not imply a waiver of an established Union entitlement. Moreover, in order to reinforce the safeguarding of the Union's financial interests, Union funds claimed for reimbursement should be treated by Member States no less favourably than claims of public bodies on their territory.
- (31) Taking into account the need to reduce the risk associated with the management of amounts received on a temporary basis by way of fines, penalties and sanctions, as well as any income generated by them, those amounts should be recorded as budget revenue as soon as possible and at the latest in the financial year following the exhaustion of all remedies against the decisions imposing them.
- (32) Clarification of the various types of payments should, in accordance with the principle of sound financial management, be provided. Moreover, pre-financing payments should be cleared regularly by the authorising officer responsible in accordance with the accounting rules defined by the accounting officer of the Commission. To this effect, appropriate provisions should be included in contracts, grant decisions, grant agreements as well as in delegation agreements.
- (33) This Regulation should foster the objective of e-Government, and in particular the use of electronic data in the exchange of information between the institutions and third parties.
- (34) The possibility of conducting joint procurement procedures with the European Free Trade Association (EFTA) states or Union candidate countries should be allowed under certain conditions.
- (35) The rules for exclusion from, in particular, participation in procurement procedures should be improved in order to strengthen the protection of the Union's financial interests.
- (36) Given that the use of the ECB and the EIB own resources is of financial interest to the Union, they should be given access to the information contained in the central exclusion database, which was created to protect the Union's financial interests.
- (37) A sound legal basis for the publication of decisions applying administrative and financial penalties, in particular relating to public procurement, should be introduced, in line with data protection requirements. Such publication should remain optional for reasons of data protection and security.
- (38) The requirement for contractors to lodge guarantees should no longer be automatic, but should be based on a risk analysis.
- (39) For reasons of legal certainty, the scope of grants and financial instruments should be clarified. A more detailed definition of the specific conditions applicable to grants, on the one hand, and to financial instruments, on the other, should also contribute to maximising the impact of those two types of financial support.
- (40) The grant rules applicable to entities specifically established for the purpose of an action should be adjusted so as to facilitate access to Union funding and management of grants by applicants and beneficiaries having decided to work together within a partnership or grouping constituted in accordance with relevant national law, in particular where the legal form chosen offers a solid and reliable cooperation environment. In addition, in the light of the limited financial risks for the Union and the need to avoid adding a layer of contractual requirements to existing structural arrangements, entities affiliated to a beneficiary through permanent capital or legal links should be entitled to declare eligible costs without having to comply with all the obligations of a beneficiary.
- (41) Experience gained in the use of lump sums or flat-rate financing has shown that, such forms of financing significantly simplified administrative procedures and reduced the risk of error substantially. In addition, output-based funding has proved appropriate for certain types of actions. In this context, the conditions for using simplified forms of grants determined on the basis of lump sums, unit costs and flat rates should be made more flexible. In particular, amounts determined by the application of a beneficiary-by-beneficiary approach should be allowed, including where such amounts are declared by the beneficiary in accordance with its usual cost accounting practices, in order to alleviate the administrative burden and the costs borne by that beneficiary specifically for the purpose of financial reporting to the Union.
- (42) In order to remove the barriers to participation in Union grant programmes by persons having the necessary expertise but who are not paid in the form of a salary, as may be the case for those working in small structures, grant rules should take account of the specific remuneration schemes applied by small and medium-sized enterprises ('SMEs'), as defined in Commission Recommendation 2003/361/EC of 6 May 2003 concerning the definition of micro, small and medium-sized enterprises ⁽¹⁾.
- (43) The principles of no-profit and co-financing should be adjusted in the light of practical experience and of the diverging interpretations and application of such principles, which results in errors and occasionally in counterproductive effects. In particular, the definition of profit should focus on eligible costs and the receipts specifically financing those costs, in order to simplify reporting by beneficiaries and to encourage them to diversify their sources of funding. Moreover, the Commission should not presume that other donors will not recover any surplus generated by their own contributions, and should, therefore, only recover profit in

⁽¹⁾ OJ L 124, 20.5.2003, p. 36.

proportion to its grant. Finally, the degressivity principle has not proved to be an effective tool in limiting the risk of dependence of beneficiaries of operating grants on Union funds. In addition, the applicability of the principle of degressivity has been considerably reduced following the necessary introduction of exceptions in a number of basic acts and in the case of simplified forms of grants. In view of these drawbacks, the degressivity requirement applicable to operating grants should be removed.

- (44) Access to Union funding for entities with limited administrative resources, which can represent a priority target population for certain grant schemes and be indispensable to achieving Union policy objectives, should be facilitated by further simplifying procedures applicable to low value grants.
- (45) In order to ensure legal certainty and establish a single set of basic financial rules which beneficiaries can refer to throughout Union programmes, this Regulation should lay down the cost eligibility criteria and specific conditions governing certain categories of costs and should provide for their consistent application.
- (46) The conditions for accepting contributions in kind from third parties as co-financing and for determining the value of those contributions should be harmonised so as to reduce the risks of error and litigation.
- (47) For the sake of transparency and in order to take account of the planning constraints specific to them, grant applicants should be informed in the call for proposals of the expected time it will take for grant agreements to be signed or grant decisions to be notified to them. For the same purpose, this Regulation should lay down a reference time, based on experience and on the anticipated effects of the simplification measures introduced.
- (48) Where systemic or recurrent errors, having a material impact on a number of grants, are detected, extension of audit findings to the non-audited grants that are impacted should be authorised under strict conditions, so as to alleviate the financial and administrative burden created by on-the-spot controls and audits. The Commission should only resort to extrapolation of the reduction or recovery rate applied to grants for which systemic or recurrent errors have been demonstrated, where it is not possible or practicable with proportionate effort to quantify precisely the amount of ineligible costs for each grant concerned.
- (49) This Regulation should establish standard periods for which documents relating to Union grants should be kept by beneficiaries so as to avoid divergent or disproportionate contractual requirements while still providing for sufficient time for the Commission and the Court of Auditors to obtain access to such data and documents and perform the *ex post* checks and audits necessary to protect the Union's financial interests.

- (50) The possibility for a beneficiary to award financial support to third parties should be extended under certain conditions in order to facilitate the correct implementation of programmes targeting, inter alia, numerous natural persons who can only be reached through cascading grants. Nevertheless, the principle according to which a beneficiary may not exercise discretion when awarding financial support to third parties should be maintained, in particular to avoid any confusion between the possibility offered to beneficiaries to design and implement, under their responsibility, actions which involve financial support as an eligible activity and the possibility to entrust budget implementation tasks under shared or indirect management to certain bodies, entities or persons.
- (51) As a valuable type of financial support, the use of prizes should be facilitated and the applicable rules clarified by separating prizes from the grant regime and removing any reference to predictable costs. Nevertheless, prizes are not well-suited to all Union policy objectives and should, therefore, be seen as complementing, not substituting, other funding instruments such as grants.
- (52) Financial instruments can be valuable in multiplying the effect of Union funds when those funds are pooled with other funds and include a leverage effect. Since such financial instruments cannot be assimilated to services or grants, a new type of financial support should be established. Financial instruments should only be implemented under strict conditions, so that there are no budgetary risks for the budget and no risk of market distortion which is inconsistent with state aid rules.
- (53) Within the framework of the annual appropriations authorised by the European Parliament and the Council for a given programme, financial instruments should be used on a complementary basis, on the basis of an *ex ante* evaluation demonstrating that they are more effective for the achievement of the Union's policy objectives than other forms of Union funding, including grants.
- (54) Financial instruments should be authorised by means of a basic act, defining in particular their objectives and duration. Where financial instruments are established without a basic act in duly justified cases, they should be authorised by the European Parliament and the Council in the budget.
- (55) The instruments that potentially fall under Title VIII of Part One, such as loans, guarantees, equity investments, quasi-equity investment and risk-sharing instruments should be defined. The definition of risk-sharing instruments should allow for the inclusion of credit enhancements for project bonds, covering the debt service risk of a project and mitigating the credit risk of bond holders through credit enhancements in the form of a loan or a guarantee.

- (56) Annual repayments, including capital repayments, guarantees released and repayments of the principal of loans should constitute internal assigned revenue. Revenue including dividends, capital gains, guarantee fees and interest on loans and on amounts on fiduciary accounts should be entered in the budget after deduction of management costs and fees. This Regulation should lay down the principles and conditions for financial instruments and rules on the limitation of the financial liability of the Union, the fight against fraud and money laundering, the winding down of financial instruments and reporting.
- (57) The presentation of accounts should be simplified by providing that the Union's accounts comprise only the consolidated financial statements and the aggregated budgetary accounts. It should also be clarified that the consolidation process only concerns the institutions, bodies which are set up under the TFEU and the Euratom Treaty and which have legal personality and receive contributions charged to the budget, and other bodies whose accounts are required to be consolidated in accordance with the accounting rules adopted by the accounting officer.
- (58) As required by the internationally accepted accounting standards on which Union accounting rules are based, pension liability, together with other employee benefits liabilities, should be recorded in the Union accounts, separately disclosed on the face of the Union balance sheet and explained further in the notes to the financial statements.
- (59) In order to clearly separate the duties and responsibilities of the Commission's accounting officer from those of the accounting officers of institutions or bodies which are set up under the TFEU and the Euratom Treaty and which have legal personality and receive contributions charged to the budget, and other bodies whose accounts are required to be consolidated in accordance with the accounting rules adopted by the accounting officer, the report on budgetary and financial management of the financial year should be prepared by each institution or body and then sent to the European Parliament, the Council and the Court of Auditors by 31 March of the following financial year.
- (60) It is necessary to update the Union rules and principles on accounting in order to ensure their consistency with the rules of the International Public Sector Accounting Standard Board.
- (61) The Court of Auditors should ensure that any of its findings that could have an impact on the final accounts of auditees or the legality or regularity of their underlying transactions, are transmitted to the institution or body concerned in good time in order to allow such auditees sufficient time to address those findings.
- (62) The provisions concerning provisional and final accounts should be updated, in particular, in order to specify the reporting information that should accompany the accounts sent to the Commission's accounting officer for the purpose of consolidation.
- (63) As regards the information which is to be submitted by the Commission in the context of discharge, the Commission should, in particular, submit to the European Parliament and to the Council an evaluation report on the Union's finances, in accordance with Article 318 TFEU.
- (64) As regards the specific provisions of this Regulation concerning the structural funds, cohesion funds, the European Fisheries Fund, the European Agricultural Fund for Rural Development and funds in the area of Freedom, Security and Justice managed in shared management, the provision for repayment of pre-financing payments, and making appropriations available again, contained in the Commission declaration annexed to Council Regulation (EC) No 1260/1999 of 21 June 1999 laying down general provisions on the Structural Funds⁽¹⁾ should be retained. Moreover, by way of derogation from the carry-over rule, the Commission should be allowed to carry over commitment appropriations available at the end of the financial year, arising from repayments of pre-financing payments, until the closure of the programme, and to use those commitment appropriations when other commitment appropriations are no longer available.
- (65) The participation of the Joint Research Centre (JRC) in procurement and grant procedures should be clarified. Moreover, in order to carry out the related activities effectively, revenue stemming from participation in such procedures should exceptionally be considered external assigned revenue.
- (66) The specific provisions relating to the implementation of external actions should be adapted to the changes in the methods of implementation and a differentiated approach should be provided for when the Union is required to respond to humanitarian emergencies, international crises or the needs of third countries undergoing a process of democratic transition.
- (67) This Regulation should establish general conditions under which budget support may be used as an instrument in external action. Such conditions should relate to ensuring a sufficiently transparent, reliable and effective management of public finances. Furthermore, the Commission should decide in a financing decision on the objectives and expected results to which the payment of budget support should be linked. Such elements, as well as the conditions under which budget support is to be reimbursed, should be contained in the financing agreement concluded with the beneficiary country.

⁽¹⁾ OJ L 161, 26.6.1999, p. 1.

- (68) In order to strengthen the international role of the Union in external actions and development and to increase its visibility and efficiency, the Commission should be authorised to create and manage Union trust funds for emergency, post-emergency or thematic actions. Although not integrated in the budget, those trust funds should be managed in accordance with this Regulation to the extent necessary for the security and transparency of the use of Union funds. For that purpose, the Commission should chair the governing board established for each trust fund to ensure the representation of donors and to decide upon the use of the funds. Moreover, the accounting officer of each trust fund should be the accounting officer of the Commission.
- (69) The period for the conclusion of contracts and grant agreements by entities entrusted, under indirect management, with implementing external actions should be limited to three years following the signature of the delegation agreement, unless specific exceptional and external circumstances exist. However, that deadline should not apply to multiannual programmes implemented under the structural funds procedures. Detailed rules for decommitment of appropriations in the case of such multiannual programmes should be laid down in sector-specific rules.
- (70) With regard to specific rules on procurement applicable to external actions, third country nationals established in beneficiary countries should be allowed to participate in tendering procedures, also in the case of implementation of a programme without a basic act and where there are duly justified exceptional circumstances.
- (71) The manner in which the institutions currently report on building projects to the European Parliament and the Council should be improved. Institutions should inform the European Parliament and the Council in advance of their future building projects and at the different stages of those projects. The approval rather than just the opinion of the European Parliament and the Council should be required for building projects which have a significant impact on the budget.
- (72) Institutions should be allowed to develop a long-term real estate policy and profit from lower interest rates resulting from the favourable credit rating of the Union on the financial market. To this end, they should be authorised to raise loans to acquire real estate assets. This would allow the possibility of addressing the complexity of the current system, while saving costs and introducing more transparency.
- (73) In the light of experience, this Regulation should clarify the scope of activities, the selection procedure and the payment conditions of natural persons selected as experts.
- (74) In order to supplement and amend certain aspects of this Regulation the power to adopt acts in accordance with Article 290 TFEU should be delegated to the Commission. The content and scope of each delegation is set out in detail in the relevant Articles. It is of particular importance that the Commission carry out appropriate consultations during its preparatory work for delegated acts, including at expert level. The Commission, when preparing and drawing up delegated acts, should ensure the simultaneous, timely and appropriate transmission of relevant documents to the European Parliament and the Council.
- (75) This Regulation should be revised only when necessary, and at the latest two years before the end of the first post-2013 multiannual financial framework. Excessively frequent revisions generate a disproportionate cost in adjusting administrative structures and procedures to the new rules. Furthermore, time may be too short to allow for valid conclusions to be drawn from the application of the rules in force.
- (76) Transitional provisions should be set out. This Regulation should only apply following the adoption of the delegated acts, containing the rules of application, which are expected to enter into force in December 2012. In order to avoid the application of this Regulation in the last month of the year, it is appropriate to defer its application to 1 January 2013. Moreover, in order to ensure coherence with the sector-specific rules, it is appropriate to defer application of the provisions on the methods of implementation and financial instruments to 1 January 2014. Finally, in order to allow for their application already to the 2012 budget, it is appropriate that the provisions on the transfer of payment appropriations for Structural Funds for the end of the year apply from the date of entry into force of this Regulation.
- (77) This Regulation should enter into force on the day following that of its publication in the *Official Journal of the European Union* in order to allow for the timely adoption of the delegated acts under this Regulation. The timely entry into force of this Regulation is necessary for the application of the rules set out in the delegated acts from 1 January 2013, in order to avoid the difficulties linked to a modification of financial rules during the financial year.
- (78) The European Data Protection Supervisor was consulted in accordance with Article 28(2) of Regulation (EC) No 45/2001 of the European Parliament and of the Council of 18 December 2000 on the protection of individuals with regard to the processing of personal data by the Community institutions and bodies and on the free movement of such data⁽¹⁾ and delivered an opinion on 15 April 2011⁽²⁾,

TITLE II

BUDGETARY PRINCIPLES

Article 6

Respect for budgetary principles

The budget shall be established and implemented in accordance with the principles of unity, budgetary accuracy, annuality, equilibrium, unit of account, universality, specification, sound financial management which requires effective and efficient internal control, and transparency as set out in this Regulation.

CHAPTER 1

Principles of unity and of budgetary accuracy

Article 7

Scope of the budget

1. The budget shall comprise:
 - (a) the revenue and expenditure of the Union, including administrative expenditure occasioned for the institutions by the provisions of the TEU relating to the Common Foreign and Security Policy, and the operational expenditure occasioned by implementation of those provisions where this is charged to the budget;

- (b) the revenue and expenditure of the European Atomic Energy Community.

2. The budget shall record the guarantees for borrowing-and-lending operations entered into by the Union, including the European Financial Stability Mechanism and Balance of Payment Facility operations, in accordance with point (d) of Article 49(1).

Article 8

Specific rules on the principles of unity and budgetary accuracy

1. Without prejudice to Article 83, no revenue shall be collected and no expenditure effected unless booked to a line in the budget.
2. No expenditure may be committed or authorised in excess of the authorised appropriations.
3. An appropriation may be entered in the budget only if it is for an item of expenditure considered necessary.

⁽¹⁾ OJ L 56, 4.3.1968, p. 1

⁽²⁾ OJ L 124, 8.6.1971, p. 1.

⁽³⁾ OJ L 281, 23.11.1995, p. 31.

4. Interest generated by pre-financing payments made from the budget shall not be due to the Union except as otherwise provided for in the delegation agreements, with the exception of those agreements concluded with third countries or the bodies they have designated. In cases in which it is provided for, such interest shall either be re-used for the corresponding action, deducted from payment requests in accordance with point (c) of the first subparagraph of Article 23(1) or recovered.

The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the accounting of interest generated by pre-financing payments.

CHAPTER 2

Principle of annuality

Article 9

Definition

The appropriations entered in the budget shall be authorised for a financial year which shall run from 1 January to 31 December.

Article 10

Type of appropriations

1. The budget shall contain differentiated appropriations, which consist of commitment appropriations and payment appropriations, and non-differentiated appropriations.

2. Commitment appropriations shall cover the total cost of the legal commitments entered into during the financial year, subject to Article 86(4) and Article 189(2).

3. Payment appropriations shall cover payments made to honour the legal commitments entered into in the financial year or preceding financial years.

4. Paragraphs 1 and 2 of this Article are without prejudice to the special provisions of Titles I, IV and VI of Part Two and shall not prevent appropriations being committed globally or budgetary commitments being made in annual instalments.

Article 11

Accounting for revenue and appropriations

1. The revenue of a financial year shall be entered in the accounts for the financial year on the basis of the amounts collected during that financial year. However, the own resources for the month of January of the following financial year may be made available in advance pursuant to Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities' own resources ⁽¹⁾.

2. The entries in respect of value-added-tax own resources, of the additional resource based on gross national income and of any financial contributions may be adjusted in accordance with Regulation (EC, Euratom) No 1150/2000.

3. The appropriations authorised for a financial year shall be used solely to cover expenditure committed and paid in that financial year and to cover amounts due against commitments from preceding financial years.

The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules for appropriations for the financial year.

4. Commitments shall be entered in the accounts on the basis of the legal commitments entered into up to 31 December. By way of exception, the global budgetary commitments referred to in Article 86(4) and the financing agreements referred to in Article 189(2) and concluded with third countries shall be entered in the accounts on the basis of the budgetary commitments up to 31 December.

5. Payments shall be entered in the accounts for a financial year on the basis of the payments effected by the accounting officer by 31 December of that year.

6. By way of derogation from paragraphs 3, 4 and 5, the expenditure of the European Agricultural Guarantee Fund shall be entered in the accounts for a financial year in accordance with the rules laid down in Title I of Part Two.

Article 12

Commitment of appropriations

The appropriations entered in the budget may be committed with effect from 1 January, once the budget has been definitively adopted, except as otherwise provided for in Title I and Title VI of Part Two.

Article 13

Cancellation and carry-over of appropriations

1. Appropriations which have not been used by the end of the financial year for which they were entered shall be cancelled.

However, they may be carried over, but only to the following financial year, by a decision taken by 15 February by the institution concerned, in accordance with paragraphs 2 and 3, or they may be carried over automatically in accordance with paragraph 4.

2. Differentiated commitment appropriations and non-differentiated appropriations not yet committed at the end of the financial year may be carried over in respect of:

- (a) amounts corresponding to commitment appropriations, or to non-differentiated appropriations relating to building projects, for which most of the preparatory stages of the commitment procedure have been completed by 31 December. Such amounts may then be committed up to 31 March of the following year, or up to 31 December of the following year for amounts relating to building projects;

⁽¹⁾ OJ L 130, 31.5.2000, p. 1.

(b) amounts which are necessary when the legislative authority has adopted a basic act in the final quarter of the financial year and the Commission has been unable to commit the appropriations provided for this purpose by 31 December.

3. Payment appropriations may be carried over in respect of amounts needed to cover existing commitments or commitments linked to commitment appropriations carried over, where the payment appropriations provided for in the relevant budget lines for the following financial year are not sufficient to cover requirements.

The institution concerned shall first use the appropriations authorised for the current financial year and shall not use the appropriations carried over until the former are exhausted.

4. Non-differentiated appropriations corresponding to obligations duly contracted at the end of the financial year shall be carried over automatically to the following financial year only.

5. The institution concerned shall inform the European Parliament and the Council by 15 March of the carry-over decision it has taken and shall state, for each budget line, how the criteria in paragraphs 2 and 3 have been applied to each carry-over.

6. Without prejudice to Article 14, appropriations placed in reserve and appropriations for staff expenditure shall not be carried over. For the purpose of this Article, staff expenditure comprises the remuneration and allowances for members and staff of the institutions to which the Staff Regulations apply.

7. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules for the cancellation and carry-over of appropriations.

Article 14

Carry-over rules for assigned revenue

Carry-over of assigned revenue referred to in Article 21, and of appropriations not used and available at 31 December arising from such revenue, shall comply with the following rules:

- (a) external assigned revenue shall be carried over automatically and shall be fully used by the time all the operations relating to the programme or action to which it is assigned have been carried out. External assigned revenue received during the last year of the programme or action may be used in the first year of the succeeding programme or action;
- (b) internal assigned revenue shall be carried over for one year only, with the exception of internal assigned revenue defined in point (g) of Article 21(3), which shall be carried over automatically.

Article 15

Decommitment of appropriations

Without prejudice to Articles 178 and 182, where appropriations are decommitted in any financial year after that in which

the appropriations were entered in the budget as a result of total or partial non-implementation of the actions for which they were earmarked, the appropriations concerned shall be cancelled.

Article 16

Rules applicable in the event of late adoption of the budget

1. If the budget has not been definitively adopted at the beginning of the financial year, the procedure set out in the first paragraph of Article 315 TFEU (the provisional twelfths regime) shall apply. Commitments and payments may be made within the limits laid down in paragraph 2 of this Article.

2. Commitments may be made per chapter up to a maximum of one quarter of the total appropriations authorised in the relevant chapter of the previous financial year plus one twelfth for each month which has elapsed.

The limit of the appropriations provided for in the draft budget shall not be exceeded.

Payments may be made monthly per chapter up to a maximum of one twelfth of the appropriations authorised in the relevant chapter of the preceding financial year. That sum shall not, however, exceed one twelfth of the appropriations provided for in the same chapter of the draft budget.

3. The appropriations authorised in the relevant chapter of the preceding financial year, as specified in paragraphs 1 and 2, shall be understood as referring to the appropriations voted in the budget, including by amending budgets, and after adjustment for the transfers made during that financial year.

4. If the continuity of action by the Union and management needs so require, the Council, acting by qualified majority on a proposal of the Commission, may authorise expenditure in excess of one provisional twelfth but not exceeding the total of four provisional twelfths, except in duly justified cases, both for commitments and for payments over and above those automatically made available in accordance with paragraphs 1 and 2. It shall forward the decision on authorisation without delay to the European Parliament.

The decision shall enter into force 30 days following its adoption unless the European Parliament:

- (a) acting by a majority of its component Members, decides to reduce that expenditure within that time limit, in which case the Commission shall submit a new proposal; or
- (b) informs the Council and the Commission that it does not wish to reduce that expenditure, in which case the decision shall enter into force before the expiry of the 30 days.

The additional twelfths shall be authorised in full and shall not be divisible.

5. If, for a given chapter, the authorisation of four provisional twelfths granted in accordance with paragraph 4 is not sufficient to cover the expenditure necessary to avoid a break in continuity of action by the Union in the area covered by the chapter in question, authorisation may exceptionally be given to exceed the amount of the appropriations entered in the corresponding chapter of the budget of the preceding financial year. The European Parliament and the Council shall act in accordance with the procedures provided for in paragraph 4. TITLE IV

IMPLEMENTATION OF THE BUDGET

CHAPTER 1

General provisions*Article 53***Budget implementation in accordance with the principle of sound financial management**

1. The Commission shall implement the revenue and expenditure of the budget in accordance with this Regulation, under its own responsibility and within the limits of the appropriations authorised.

2. The Member States shall cooperate with the Commission so that the appropriations are used in accordance with the principle of sound financial management.

3. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the implementation of the budget in accordance with the principle of sound financial management, and on information on transfers of personal data for audit purposes.

*Article 54***Basic act and exceptions**

1. A basic act shall first be adopted before the appropriations entered in the budget for any action by the Union may be used.

2. By way of derogation from paragraph 1 the following may be implemented without a basic act provided the actions which they are intended to finance fall within the competences of the Union:

- (a) appropriations for pilot projects of an experimental nature designed to test the feasibility of an action and its usefulness. The relevant commitment appropriations may be entered in the budget for not more than two consecutive financial years.

The total amount of appropriations for the pilot projects shall not exceed EUR 40 000 000 in any financial year;

- (b) appropriations for preparatory actions in the field of application of the TFEU and the Euratom Treaty, designed to prepare proposals with a view to the adoption of future actions. The preparatory actions shall follow a coherent approach and may take various forms. The relevant commitment appropriations may be entered in the budget for not more than three consecutive financial years. The procedure for the adoption of the relevant basic act shall be concluded before the end of the third financial year. In the course of that procedure, the commitment of appropriations shall correspond to the particular features of the preparatory action with regard to the activities envisaged, the aims pursued and the recipients. Consequently, the means implemented shall not correspond in volume to those envisaged for financing the definitive action itself.

The total amount of appropriations for new preparatory actions referred to under this point shall not exceed EUR 50 000 000 in any financial year, and the total amount of appropriations actually committed for preparatory actions shall not exceed EUR 100 000 000;

- (c) appropriations for preparatory measures in the field of Title V of the TEU. Such measures shall be limited to a short period of time and shall be designed to establish the conditions for Union action in fulfilment of the objectives of the CFSP and for the adoption of the necessary legal instruments.

For the purpose of Union crisis management operations, preparatory measures shall be designed, *inter alia*, to assess the operational requirements, to provide for a rapid initial deployment of resources, or to establish the conditions on the ground for the launching of the operation.

Preparatory measures shall be agreed by the Council, on a proposal by the High Representative.

In order to ensure the rapid implementation of preparatory measures, the High Representative shall inform the European Parliament and the Commission as early as possible of the Council's intention to launch a preparatory measure and, in particular, of the estimated resources required for this purpose. The Commission shall take all the measures necessary to ensure a rapid disbursement of the funds.

The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules for the financing of preparatory measures in the field of the CFSP;

- (d) appropriations for one-off actions, or even actions for an indefinite duration, carried out by the Commission by virtue of tasks resulting from its prerogatives at institutional level pursuant to the TFEU and the Euratom Treaty, other than its right of legislative initiative referred to in point (b), and under specific powers directly conferred on it by those Treaties, a list of which is to be given in the delegated acts adopted pursuant to this Regulation;

- (e) appropriations for the operation of each institution under its administrative autonomy.

When the draft budget is presented, the Commission shall submit a report to the European Parliament and the Council on the actions referred to in points (a) and (b) of the first subparagraph which shall also contain an assessment of results and the follow-up envisaged.

3. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the basic act and the exceptions enumerated in paragraph 2 of this Article.

Article 55

Implementation of the budget by institutions other than the Commission

The Commission shall confer on the other institutions the requisite powers for the implementation of the sections of the budget relating to them.

Detailed arrangements may be agreed between the EEAS and the Commission in order to facilitate the implementation of Union Delegations' administrative appropriations. Such arrangements shall not contain any derogation from this Regulation or the delegated acts adopted pursuant to this Regulation.

Article 56

Delegation of budget implementation powers

1. The Commission and each of the other institutions may, within their departments, delegate their powers of budget implementation in accordance with the conditions laid down in this Regulation and by their internal rules and within the limits which they lay down in the instrument of delegation. Those so empowered shall act within the limits of the powers expressly conferred upon them.

2. However, the Commission may delegate its powers of budget implementation concerning the operational appropriations of its own section to the Heads of Union Delegations. It shall, at the same time, inform the High Representative thereof. When Heads of Union Delegations act as subdelegated authorising officers of the Commission, they shall apply the Commission rules for the implementation of the budget and shall be subject to the same duties, obligations and accountability as any other subdelegated authorising officer of the Commission.

The Commission may withdraw the delegation in accordance with its own rules.

For the purposes of the first subparagraph, the High Representative shall take the measures necessary to facilitate cooperation between Union Delegations and Commission departments.

Article 57

Conflict of interests

1. Financial actors and other persons involved in budget implementation and management, including acts preparatory thereto, audit or control shall not take any action which may bring their own interests into conflict with those of the Union.

Where such a risk exists, the person in question shall refrain from such action and shall refer the matter to the authorising officer by delegation who shall confirm in writing whether a conflict of interests exists. The person in question shall also inform his or her hierarchical superior. Where a conflict of interests is found to exist, the person in question shall cease all activities in the matter. The authorising officer by delegation shall personally take any further appropriate action.

2. For the purposes of paragraph 1, a conflict of interests exists where the impartial and objective exercise of the functions of a financial actor or other person, as referred to in paragraph 1, is compromised for reasons involving family, emotional life, political or national affinity, economic interest or any other shared interest with a recipient.

3. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 setting out what is likely to constitute a conflict of interests together with the procedure to be followed in such cases.

CHAPTER 2

(viii) persons entrusted with the implementation of specific actions in the CFSP pursuant to Title V of the TEU, and identified in the relevant basic act.

2. The Commission remains responsible for the implementation of the budget in accordance with Article 317 TFEU and shall inform the European Parliament and the Council of the operations carried out by the entities and persons entrusted pursuant to point (c) of paragraph 1 of this Article. Where the entrusted entity or person is identified in a basic act, the financial statement provided for in Article 31 shall include a full justification for the choice of that particular entity or person.

3. The entities and persons entrusted pursuant to point (c) of paragraph 1 of this Article shall fully cooperate in the protection of the Union's financial interests. Delegation agreements shall provide for the right of the Court of Auditors and the European Anti-Fraud Office (OLAF) to comprehensively exert their competences under the TFEU in the audit of funds.

The Commission shall entrust budget implementation tasks to entities and persons under point (c) of paragraph 1 of this Article provided that transparent, non-discriminatory, efficient and effective review procedures concerning the actual implementation of such tasks are in place.

4. All delegation agreements shall be made available to the European Parliament and the Council at their request.

5. Entities and persons entrusted pursuant to point (c) of paragraph 1 of this Article shall ensure, in accordance with Article 35(2), appropriate annual *ex post* publication of information on recipients. The Commission shall be notified of the measures taken in this regard.

6. Entities and persons entrusted pursuant to point (c) of paragraph 1 shall not have the status of authorising officer by delegation.

7. The Commission shall not entrust executive powers to third parties, where such powers involve a large measure of discretion implying political choices.

8. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the methods of implementation of the budget, including direct management, the exercise of powers delegated to executive agencies, and specific provisions for indirect management with international organisations, with bodies referred to in Articles 208 and 209, with public law bodies or bodies governed by private law with a public service mission, with bodies governed by the private law of a Member State and entrusted with the implementation of a public-private partnership and with persons entrusted with the implementation of specific actions in the CFSP.

Article 59

Shared management with Member States

1. Where the Commission implements the budget under shared management, implementation tasks shall be delegated to Member States. The Commission and the Member States shall respect the principles of sound financial management, transparency and non-discrimination and shall ensure the visibility of Union action when they manage Union funds. To this end, the Commission and the Member States shall fulfil their respective control and audit obligations and assume the resulting responsibilities laid down in this Regulation. Complementary provisions shall be laid down in sector-specific rules.

2. When executing tasks relating to the implementation of the budget, Member States shall take all the necessary measures, including legislative, regulatory and administrative measures, to protect the Union's financial interests, namely by:

- (a) ensuring that actions financed from the budget are implemented correctly and effectively and in accordance with the applicable sector-specific rules and, for that purpose, designating in accordance with paragraph 3, and supervising bodies responsible for the management and control of Union funds;
- (b) preventing, detecting and correcting irregularities and fraud.

In order to protect the Union's financial interests, Member States shall, respecting the principle of proportionality, and in compliance with this Article, and the relevant sector-specific rules, carry out *ex ante* and *ex post* controls including, where appropriate, on-the-spot checks on representative and/or risk-based samples of transactions. They shall also recover funds unduly paid and bring legal proceedings where necessary in this regard.

Member States shall impose effective, dissuasive and proportionate penalties on recipients where provided for in sector-specific rules and in specific provisions in national legislation.

As part of its risk assessment and in accordance with sector-specific rules, the Commission shall monitor the management and control systems established in the Member States. The Commission shall, in its audit work, respect the principle of proportionality and shall take into account the level of assessed risk in accordance with the sector-specific rules.

3. In accordance with the criteria and procedures laid down in sector-specific rules, Member States shall, at the appropriate level, designate bodies to be responsible for the management and control of Union funds. Such bodies may also carry out tasks not related to the management of Union funds and may entrust certain of their tasks to other bodies.

When deciding on the designation of bodies, Member States may base their decision on whether the management and control systems are essentially the same as those already in place for the previous period and whether they have functioned effectively.

If audit and control results show that the designated bodies no longer comply with the criteria set out in the sector-specific rules, Member States shall take the measures necessary to ensure that deficiencies in the implementation of the tasks of these bodies are remedied, including by ending the designation in accordance with the sector-specific rules.

The sector-specific rules shall define the role of the Commission in the process set out in this paragraph.

4. Bodies designated pursuant to paragraph 3 shall:

- (a) set up and ensure the functioning of an effective and efficient internal control system;
- (b) use an accounting system that provides accurate, complete and reliable information in a timely manner;
- (c) provide the information required under paragraph 5;
- (d) ensure *ex post* publication in accordance with Article 35(2). Any processing of personal data shall comply with national provisions implementing Directive 95/46/EC.

5. Bodies designated pursuant to paragraph 3 shall, by 15 February of the following financial year, provide the Commission with:

- (a) their accounts on the expenditure that was incurred, during the relevant reference period as defined in the sector-specific rules, in the execution of their tasks and that was presented to the Commission for reimbursement. Those accounts shall include pre-financing and sums for which recovery procedures are underway or have been completed. They shall be accompanied by a management declaration confirming that, in the opinion of those in charge of the management of the funds:
 - (i) the information is properly presented, complete and accurate,
 - (ii) the expenditure was used for its intended purpose, as defined in the sector-specific rules,
 - (iii) the control systems put in place give the necessary guarantees concerning the legality and regularity of the underlying transactions;
- (b) an annual summary of the final audit reports and of controls carried out, including an analysis of the nature and extent of errors and weaknesses identified in systems, as well as corrective action taken or planned.

The accounts referred to in point (a) of the first subparagraph and the summary referred to in point (b) of the first subparagraph shall be accompanied by an opinion of an independent audit body, drawn up in accordance with internationally accepted audit standards. That opinion shall establish whether the accounts give a true and fair view, whether expenditure for which reimbursement has been requested from the Commission is legal and regular, and whether the control systems put in place function properly. The opinion shall also state whether the audit work puts in doubt the assertions made in the management declaration referred to in point (a) of the first subparagraph.

The deadline of 15 February may exceptionally be extended by the Commission to 1 March, upon communication by the Member State concerned.

Member States may, at the appropriate level, publish the information referred to in this paragraph.

In addition, Member States may provide declarations signed at the appropriate level based on the information referred to in this paragraph.

6. In order to ensure that Union funds are used in accordance with the applicable rules, the Commission shall:

- (a) apply procedures for the examination and acceptance of the accounts of the designated bodies, ensuring that the accounts are complete, accurate and true;
- (b) exclude from Union financing expenditure for which disbursements have been made in breach of applicable law;
- (c) interrupt payment deadlines or suspend payments where provided for in the sector-specific rules.

The Commission shall end all or part of the interruption of payment deadlines or suspension of payments after a Member State has presented its observations and as soon as it has taken any necessary measures. The annual activity report referred to in Article 66(9) shall cover all the obligations under this subparagraph.

7. Sector-specific rules shall take account of the needs of European Territorial Cooperation programmes as regards, in particular, the content of the management declaration, the process set out in paragraph 3 and the audit function.

8. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on shared management with Member States, including the compilation of a register of bodies responsible for the management and control of Union funds, and on measures to promote best practices.

Article 60

Indirect management

1. Entities and persons entrusted with budget implementation tasks pursuant to point (c) of Article 58(1) shall respect the principles of sound financial management, transparency and non-discrimination and shall ensure the visibility of Union action when they manage Union funds. They shall guarantee a level of protection of the financial interests of the Union equivalent to that required under this Regulation when they manage Union funds, with due consideration for:

- (a) the nature of the tasks entrusted to them and the amounts involved;
- (b) the financial risks involved;
- (c) the level of assurance stemming from their systems, rules and procedures together with the measures taken by the Commission to supervise and support the implementation of the tasks entrusted to them.

2. In order to protect the financial interests of the Union, the entities and persons entrusted pursuant to point (c) of Article 58(1) shall, in accordance with the principle of proportionality:

- (a) set up and ensure the functioning of an effective and efficient internal control system;
- (b) use an accounting system that provides accurate, complete and reliable information in a timely manner;
- (c) be subject to an independent external audit, performed in accordance with internationally accepted auditing standards by an audit service functionally independent of the entity or person concerned;
- (d) apply appropriate rules and procedures for providing financing from Union funds through grants, procurement and financial instruments;
- (e) ensure, in accordance with Article 35(2), the *ex post* publication of information on recipients;
- (f) ensure a reasonable protection of personal data, as laid down in Directive 95/46/EC and Regulation (EC) No 45/2001.

Persons entrusted pursuant to point (viii) of Article 58(1)(c) shall adopt their financial rules with the Commission's prior consent. They shall satisfy the requirements laid down in points (a) to (e) of this paragraph no later than six months after the start of their mandate. Where, at the end of this period, they comply with those requirements only in part, the Commission shall take appropriate remedial measures to supervise and support the implementation of the tasks entrusted to them.

3. The entities and persons entrusted pursuant to point (c) of Article 58(1) shall prevent, detect and correct irregularities and fraud when executing tasks relating to the implementation of the budget. To this end, they shall carry out, in accordance with the principle of proportionality, *ex ante* and *ex post* controls including, where appropriate, on-the-spot checks on representative and/or risk-based samples of transactions, to ensure that the actions financed from the budget are effectively carried out and implemented correctly. They shall also recover funds unduly paid and bring legal proceedings where necessary in this regard.

4. The Commission may suspend payments to entities and persons entrusted pursuant to point (c) of Article 58(1), in particular when systemic errors are detected which call into question the reliability of the internal control systems of the entity or person concerned or the legality and regularity of the underlying transactions.

Notwithstanding Article 92, the authorising officer responsible may interrupt payments to such entities or persons fully or partially for the purpose of carrying out further checks where:

- (i) information comes to the notice of the authorising officer responsible indicating a significant deficiency in the functioning of the internal control system or that the expenditure certified by the entity or person concerned is linked to a serious irregularity and has not been corrected;
- (ii) the interruption is necessary to prevent significant damage to the financial interests of the Union.

5. Without prejudice to paragraph 7, the entities and persons entrusted pursuant to point (c) of Article 58(1) shall provide the Commission with:

- (a) a report on the implementation of the tasks entrusted to them;
- (b) their accounts drawn up for the expenditure incurred in the execution of the tasks entrusted to them. Those accounts shall be accompanied by a management declaration confirming that, in the opinion of those in charge of the management of the funds:
 - (i) the information is properly presented, complete and accurate,
 - (ii) the expenditure was used for its intended purpose, as defined in the delegation agreements or, where applicable, in the relevant sector-specific rules,
 - (iii) the control systems put in place give the necessary guarantees concerning the legality and regularity of the underlying transactions;
- (c) a summary of the final audit reports and of controls carried out, including an analysis of the nature and extent of errors and weaknesses identified in systems, as well as corrective action taken or planned.

The documents referred to in the first subparagraph shall be accompanied by an opinion of an independent audit body, drawn up in accordance with internationally accepted audit standards. That opinion shall establish whether the accounts give a true and fair view, whether the control systems put in place function properly, and whether the underlying transactions are legal and regular. The opinion shall also state whether the audit work puts in doubt the assertions made in the management declaration under point (b) of the first subparagraph.

The documents referred to in the first subparagraph shall be provided to the Commission no later than 15 February of the following financial year. The opinion referred to in the second subparagraph shall be provided to the Commission no later than 15 March.

The obligations set out in this paragraph shall be without prejudice to agreements concluded with international organisations and third countries. Such agreements shall include at least the obligation of those international organisations and third countries to provide the Commission annually with a statement that, during the financial year concerned, the Union contribution was used and accounted for in compliance with the requirements set out in paragraph 2 and with the obligations laid down in such agreements.

6. Without prejudice to paragraph 7, the Commission shall:

- (a) supervise the fulfilment by those persons and entities of their responsibilities, in particular by carrying out audits and evaluations on the programme implementation;
- (b) apply procedures for the examination and acceptance of the accounts of the entrusted entities and persons, ensuring that the accounts are complete, accurate and true;
- (c) exclude from Union financing expenditure disbursements which have been made in breach of the applicable rules.

7. Paragraphs 5 and 6 shall not apply to the contribution of the Union to entities which are subject to a separate discharge procedure under Article 208.

8. 2. For the purposes of this Title, the term "staff" refers to persons covered by the Staff Regulations.

3. Each institution shall delegate, in compliance with the conditions in its rules of procedure, the duties of authorising officer to staff of an appropriate level. It shall indicate, in its internal administrative rules, the staff to whom it delegates those duties, the scope of the powers delegated and whether the persons to whom those powers are delegated may subdelegate them.

4. The powers of authorising officer shall be delegated or subdelegated only to staff.

5. Authorising officers responsible shall act within the limits set by the instrument of delegation or subdelegation. The authorising officer responsible may be assisted by one or more members of staff entrusted, under his or her responsibility, with carrying out certain operations necessary for implementing the budget and presenting the accounts.

6. Where Heads of Union Delegations act as authorising officers by subdelegation in accordance with Article 56(2), they shall be subject to the Commission as the institution responsible for the definition, exercise, monitoring and appraisal of their duties and responsibilities as authorising officers by subdelegation. The Commission shall, at the same time, inform the High Representative thereof.

7. The authorising officer responsible may be assisted by staff entrusted, under his or her responsibility, with certain tasks required for the implementation of the budget and production of the financial and management information. Staff assisting authorising officers responsible shall be subject to Article 57.

8. Each institution shall inform the Court of Auditors, the European Parliament and the Council of the appointment and release of authorising officers by delegation, internal auditors and accounting officers, and of any internal rules it adopts in respect of financial matters.

9. Each institution shall inform the Court of Auditors of the appointment of imprest administrators and of delegation decisions under Article 69(1) and Article 70.

10. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the assistance provided to authorising officers responsible and the internal provisions governing delegations.

Article 66

Powers and duties of the authorising officer

1. The authorising officer shall be responsible in each institution for implementing revenue and expenditure in accordance with the principle of sound financial management and for ensuring compliance with the requirements of legality and regularity.

2. For the purposes of paragraph 1, the authorising officer by delegation shall, in accordance with Article 32 and the minimum standards adopted by each institution and having due regard to the risks associated with the management environment and the nature of the actions financed, put in place the organisational structure and the internal control systems suited to the performance of his or her duties. The establishment of such structure and systems shall be supported by a comprehensive risk analysis, which takes into account their cost-effectiveness.

3. To implement expenditure, the authorising officer responsible shall make budgetary and legal commitments, shall validate expenditure and authorise payments and shall undertake the preliminary steps for the implementation of appropriations.

4. Implementation of revenue shall comprise drawing up estimates of amounts receivable, establishing entitlements to be recovered and issuing recovery orders. It shall involve waiving established entitlements, where appropriate.

5. Each operation shall be subject at least to an *ex ante* control, based on a desk review of documents and on the available results of controls already carried out, relating to the operational and financial aspects of the operation.

Ex ante controls shall comprise the initiation and the verification of an operation.

For a given transaction, the verification shall be carried out by staff other than those who initiated the operation. The staff who carry out the verification shall not be subordinate to the members of staff who initiated the operation.

6. The authorising officer by delegation may put in place *ex post* controls to verify operations already approved following *ex ante* controls. Such controls may be organised on a sample basis according to risk.

The *ex ante* controls shall be carried out by staff other than those responsible for the *ex post* controls. The staff responsible for the *ex post* controls shall not be subordinate to the members of staff responsible for the *ex ante* controls.

Where the authorising officer by delegation implements financial audits of beneficiaries as *ex-post* controls, the related audit rules shall be clear, consistent and transparent, and shall respect the rights of both the Commission and the auditees.

7. Staff responsible for controlling the management of financial operations shall have the necessary professional skills. They shall respect a specific code of professional standards established by each institution.

8. If a member of staff, involved in the financial management and control of transactions, considers that a decision he or she is required by his or her superior to apply or to agree to is irregular or contrary to the principle of sound financial management or the professional rules which that member of staff is required to observe, he or she shall inform his or her hierarchical superior accordingly. If the member of staff does so in writing, the hierarchical superior shall reply in writing. If the hierarchical superior fails to take action or confirms the initial decision or instruction and the member of staff believes that such confirmation does not constitute a reasonable response to his or her concern, the member of staff shall inform the authorising officer by delegation in writing. If that officer fails to take action, the member of staff shall inform the relevant panel referred to in Article 73(6).

In the event of any illegal activity, fraud or corruption which may harm the interests of the Union, the member of staff shall inform the authorities and bodies designated by the applicable legislation. Contracts with external auditors carrying out audits of the financial management of the Union shall provide for an obligation of the external auditor to inform the authorising officer by delegation of any suspected illegal activity, fraud or corruption which may harm the interests of the Union.

9. The authorising officer by delegation shall report to his or her institution on the performance of his or her duties in the form of an annual activity report containing financial and management information, including the results of controls, declaring that, except as otherwise specified in any reservations related to defined areas of revenue and expenditure, he or she has reasonable assurance that:

- (a) the information contained in the report presents a true and fair view;
- (b) the resources assigned to the activities described in the report have been used for their intended purpose and in accordance with the principle of sound financial management;
- (c) the control procedures put in place give the necessary guarantees concerning the legality and regularity of the underlying transactions.

The activity report shall indicate the results of the operations by reference to the objectives set, the risks associated with those operations, the use made of the resources provided and the efficiency and effectiveness of internal control systems, including an overall assessment of the costs and benefits of controls.

No later than 15 June each year, the Commission shall send to the European Parliament and the Council a summary of the annual activity reports for the preceding year. The annual activity report of each authorising officer by delegation shall also be made available to the European Parliament and the Council.

10. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on

To this effect, they shall take the measures necessary to prevent any situation susceptible to put at stake the responsibility of the Commission for the implementation of the budget subdelegated to them, as well as any conflict of priorities which is likely to have an impact on the implementation of the financial management tasks subdelegated to them.

Where a situation or conflict referred to in the second subparagraph arises, the Heads of Union Delegations shall inform the Directors-General responsible of the Commission and of the EEAS thereof without delay. Those Directors-General shall take appropriate steps to remedy the situation.

Heads of Union Delegations acting as authorising officers by subdelegation in accordance with Article 56(2) shall report to their authorising officer by delegation so that the latter can integrate their reports in his or her annual activity report referred to in Article 66(9). The reports of the Heads of Union Delegations shall include information on the efficiency and effectiveness of internal control systems put in place in their Delegation, as well as on the management of operations subdelegated to them, and provide the assurance referred to in the third subparagraph of Article 73(5). Those reports shall be annexed to the annual activity report of the authorising officer by delegation, and shall be made available to the European Parliament and the Council having due regard, where appropriate, to their confidentiality.

The Heads of Union Delegations shall fully cooperate with institutions involved in the discharge procedure and provide, as appropriate, any necessary additional information. In this context, they may be requested to attend meetings of the relevant bodies and assist the authorising officer by delegation responsible.

4. Heads of Union Delegations acting as authorising officers by subdelegation in accordance with Article 56(2) shall reply to any request by the Commission's authorising officer by delegation at the Commission's own request or, in the context of discharge, at the request of the European Parliament.

1. The authorising officer responsible shall be liable for payment of compensation as laid down in the Staff Regulations.

2. The obligation to pay compensation shall apply in particular if the authorising officer responsible, whether intentionally or through gross negligence on his or her part:

- (a) determines entitlements to be recovered or issues recovery orders, commits expenditure or signs a payment order without complying with this Regulation or the delegated acts adopted pursuant to this Regulation;
- (b) omits to draw up a document establishing an amount receivable, neglects to issue a recovery order or is late in issuing it or is late in issuing a payment order, thereby rendering the institution liable to civil action by third parties.

3. An authorising officer by delegation or subdelegation who considers that a decision, which is his or her responsibility to take, is irregular or contrary to the principle of sound financial management shall inform the delegating authority in writing. If the delegating authority then gives a reasoned instruction in writing to the authorising officer by delegation or subdelegation to take that decision, that authorising officer shall not be held liable.

4. In the event of subdelegation within his or her service, the authorising officer by delegation shall continue to be responsible for the efficiency and effectiveness of the internal management and control systems put in place and for the choice of the authorising officer by subdelegation.

6. Each institution shall set up a specialised financial irregularities panel or participate in a joint panel established by several institutions. The panels shall function independently and determine whether a financial irregularity has occurred and what the consequences, if any, should be.

On the basis of the opinion of this panel, the institution shall decide whether to initiate proceedings for disciplinary action or payment of compensation. If the panel detects systemic problems, it shall send a report with recommendations to the authorising officer and to the authorising officer by delegation, unless the latter is the person involved, as well as to the internal auditor.

7. Where Heads of Union Delegations act as authorising officers by subdelegation in accordance with Article 56(2), the specialised financial irregularities panel set up by the Commission pursuant to paragraph 6 of this Article shall be competent for cases referred to in Article 56(2).

If the panel detects systemic problems, it shall send a report with recommendations to the authorising officer, the High Representative and the Commission's authorising officer by delegation, unless the latter is the person involved, as well as to the internal auditor.

On the basis of the opinion of the panel, the Commission may request the High Representative to initiate, in the High Representative's capacity as appointing authority, proceedings for disciplinary action or payment of compensation against authorising officers by subdelegation if irregularities concern the competences of the Commission subdelegated to them. 2. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules applicable to own resources.

Section 2

Article 77

Estimate of amounts receivable

1. When the authorising officer responsible has sufficient and reliable information in respect of any measure or situation which may give rise to an amount owing to the Union, the authorising officer responsible shall make an estimate of the amount receivable.

2. The estimate of the amount receivable shall be adjusted by the authorising officer responsible as soon as he or she is aware of an event modifying the measure or the situation which gave rise to the estimate being made.

When establishing the recovery order on a measure or situation that had previously given rise to an estimate of amounts receivable, that estimate shall be adjusted accordingly by the authorising officer responsible.

If the recovery order is drawn up for the same amount as the original estimate of amounts receivable, that estimate shall be reduced to zero.

3. By way of derogation from paragraph 1, no estimate of the amount receivable shall be made before Member States make available to the Commission the amounts of own resources defined in Decision 2007/436/EC, Euratom which are paid at fixed intervals by the Member States. The authorising officer responsible shall issue a recovery order in respect of those amounts.

4. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the estimate of amounts receivable.

Section 3

2. The own resources made available to the Commission and any amount receivable that is identified as being certain, of a fixed amount and due shall be established by a recovery order to the accounting officer followed by a debit note sent to the debtor, both drawn up by the authorising officer responsible.

3. Amounts wrongly paid shall be recovered.

4. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the establishment of amounts receivable, including procedures and supporting documents, and of default interest.

Section 4

2. The institution may formally establish an amount as being receivable from persons other than Member States by means of a decision which shall be enforceable within the meaning of Article 299 TFEU.

If the efficient and timely protection of the Union's financial interests so requires, the Commission may also, in exceptional circumstances, adopt such an enforceable decision for the benefit of other institutions at their request with respect to claims arising in relation to staff to whom the Staff Regulations apply.

The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the establishment of the recovery order.

Section 5

Recovery

Article 80

1. The accounting officer shall act on recovery orders for amounts receivable duly established by the authorising officer responsible. The accounting officer shall exercise due diligence to ensure that the Union receives its revenue and shall ensure that the Union's rights are safeguarded.

The accounting officer shall recover amounts by offsetting them against equivalent claims that the Union has on any debtor who in turn has a claim on the Union. Such claims shall be certain, of a fixed amount and due.

2. Where the authorising officer by delegation plans to waive or partially waive recovery of an established amount receivable, he or she shall ensure that the waiver is in order and is in accordance with the principles of sound financial management and proportionality. The waiver decision shall be substantiated. The authorising officer may delegate the waiver decision.

The authorising officer by delegation may cancel an established amount receivable in full or in part. The partial cancellation of an established amount receivable does not imply a waiver of an established Union entitlement.

The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the manner of recovery, including recovery by offsetting, the recovery procedure failing voluntary payment, additional time for payment, recovery of fines and other penalties, waiver of recovery and cancellation of an established amount receivable.

3. The Member States shall in the first instance be responsible for carrying out controls and audits and for recovering amounts unduly spent, as provided for in the sector-specific rules. To the extent that Member States detect and correct irregularities on their own account, they shall be exempt from financial corrections by the Commission concerning those irregularities.

4. The Commission shall make financial corrections on Member States in order to exclude from Union financing expenditure incurred in breach of applicable law. The Commission shall base its financial corrections on the identification of amounts unduly spent, and the financial implications for the budget. Where such amounts cannot be identified precisely, the Commission may apply extrapolated or flat-rate corrections in accordance with the sector-specific rules.

The Commission shall, when deciding on the amount of a financial correction, take account of the nature and gravity of the breach of applicable law and the financial implications for the budget, including the case of deficiencies in management and control systems.

The criteria for establishing financial corrections and the procedure to be applied may be laid down in the sector-specific rules.

5. The methodology for applying extrapolated or flat-rate corrections shall be laid down in accordance with the sector-specific rules with a view to enabling the Commission to protect the financial interests of the Union.

Article 83

Fines, penalties and accrued interest imposed by the Commission

1. Amounts received by way of fines, penalties and sanctions, and any accrued interest or other income generated by them shall not be recorded as budgetary revenue as long as the decisions imposing them may be overruled by the Court of Justice of the European Union.

2. The amounts referred to in paragraph 1 shall be recorded as budgetary revenue as soon as possible and at the latest in the year following the exhaustion of all legal remedies. A legal commitment is the act whereby the authorising officer enters into or establishes an obligation which results in a charge.

Budgetary commitments and legal commitments shall be adopted by the same authorising officer, except in duly justified cases as provided for in the delegated acts adopted pursuant to this Regulation.

2. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the types of commitment, adoption of global commitments, single signature, and administrative expenditure covered by provisional commitments.

3. Budgetary commitments shall fall into one of the following categories:

Any parts of such commitments which have not been executed six months after that date shall be decommitted in accordance with Article 15.

The amount of a budgetary commitment corresponding to a legal commitment for which no payment within the meaning of Article 90 has been made within two years of the signing of the legal commitment shall be decommitted, except where that

amount relates to a case under litigation before judicial courts or arbitral bodies or where there are special provisions laid down in sector-specific rules.

6. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on budgetary and legal commitments including registration of individual commitments.

3. The creditors concerned shall be informed in writing of the reasons for that suspension.

4. Where the suspension exceeds two months, the creditor may request a decision by the authorising officer responsible on whether the suspension is to be continued.

6. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on time limits for payment and on the specification of the circumstances in which creditors in receipt of a late payment are entitled to receive default interest charged to the line from which the principal was paid.

1. Public contracts are contracts for pecuniary interest concluded in writing between one or more economic operators and one or more contracting authorities within the meaning of Articles 117 and 190, in order to obtain, against payment of a price paid in whole or in part from the budget, the supply of movable or immovable assets, the execution of works or the provision of services.

Such contracts comprise:

- (a) building contracts;
- (b) supply contracts;
- (c) works contracts;
- (d) service contracts.

2. Framework contracts are contracts concluded between one or more economic operators and one or more contracting authorities, the purpose of which is to establish the terms governing contracts to be awarded during a given period, in particular with regard to price and, where appropriate, the quantity envisaged. They shall be governed by the provisions of this Title concerning the award procedure, including advertising.

3. Except for Articles 106 to 109, this Title shall not apply to grants, or to contracts for technical assistance concluded with the EIB or the European Investment Fund.

2. All public procurement contracts shall be put out to tender on the broadest possible basis, except when use is made of the negotiated procedure referred to in point (d) of Article 104(1).

Contracting authorities shall not use framework contracts improperly or in such a way that their purpose or effect is to prevent, restrict or distort competition.

Publication of certain information after the contract has been awarded may be dispensed with where it would hinder application of the law, would be contrary to the public interest, would harm the legitimate business interests of public or private undertakings or would distort fair competition between them.

2. Contracts with a value below the thresholds provided for in Article 118 or Article 190 and the service contracts referred to in Annex II B to Directive 2004/18/EC shall be advertised by appropriate means.

3. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the requirements for the advertising of contracts and publication of notices.

Where a public contract or a framework contract is of interest to two or more institutions, executive agencies or bodies referred to in Article 208 and 209, and whenever there is a possibility for realising efficiency gains, the contracting authorities concerned shall seek to carry out the procurement procedure on an interinstitutional basis.

Where a public contract or framework contract is necessary for the implementation of a joint action between an institution and one or more contracting authorities from Member States, the procurement procedure may be carried out jointly by the institution and the contracting authorities, in certain situations, which are to be specified in the delegated acts adopted pursuant to this Regulation.

Joint procurement may be conducted with EFTA states, and Union candidate countries, if this possibility has been specifically provided for in a bilateral or multilateral treaty.

2. For contracts where the value exceeds the thresholds provided for in Articles 118 or 190, use of the negotiated procedure shall be authorised only in cases provided for in the delegated acts adopted pursuant to this Regulation.

Points (b) and (e) of the first subparagraph shall not apply where the candidates or tenderers can demonstrate that adequate measures have been adopted against the persons having powers of representation, decision making or control over them, who are subject to a judgement as referred to in points (b) or (e) of the first subparagraph.

2. In the case of a negotiated procedure where, for technical or artistic reasons, or for reasons connected with the protection of exclusive rights, the contract can be awarded only to a particular economic operator, the institution may decide not to exclude the economic operator concerned on the grounds referred to in points (a), (c) and (d) of the first subparagraph of paragraph 1, if it is indispensable to do so in order to ensure the continuity of service of the institution. In such cases, the institution shall duly justify its decision.

does not exist. Furthermore, the Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning the duration of an exclusion.

Article 108

Central exclusion database

1. The central exclusion database set up and operated by the Commission, shall contain details of candidates and tenderers which are in one of the situations referred to in Article 106, point (b) of the first subparagraph of Article 109(1) and point (a) of Article 109(2). That database shall be common to the institutions, executive agencies and the bodies referred to in Article 208. The European Parliament and the Council shall be annually informed of the number of new cases and of the total number of cases entered into the database.

2. The authorities of the Member States and third countries as well as the bodies, other than those referred to in paragraph 1, participating in the implementation of the budget in accordance with Articles 58 and 61, shall communicate to the authorising officer responsible information on candidates and tenderers that are in one of the situations referred to in point (e) of the first subparagraph of Article 106(1), where the conduct of the operator concerned was detrimental to the Union's financial interests. That authorising officer shall receive this information and request the accounting officer to enter it into the database.

The authorities and bodies referred to in the first subparagraph shall have access to the information contained in the database and may take it into account, as appropriate and on their own responsibility, when awarding contracts associated with the implementation of the budget.

3. The ECB, the EIB and the European Investment Fund shall have access to the information contained in the database for the purpose of protecting their own funds and may take it into account, as appropriate and on their own responsibility, when awarding contracts in accordance with their procurement rules.

They shall communicate to the Commission information on candidates and tenderers that are in one of the situations referred to in point (e) of the first subparagraph of Article 106(1), where the conduct of the operators concerned was detrimental to the Union's financial interests.

*Article 109***Administrative and financial penalties**

1. The contracting authority may impose administrative and/or financial penalties on the following:

- (a) contractors, candidates or tenderers in the cases referred to in point (b) of Article 107(1);

In all cases, however, the contracting authority shall first give the person concerned an opportunity to present his or her observations.

2. The penalties referred to in paragraph 1 shall be proportionate to the importance of the contract and the seriousness of the misconduct, and may consist of:

- (a) the exclusion of the candidate or tenderer or contractor concerned from the contracts and grants financed by the budget, for a maximum period of ten years; and/or
- (b) the payment of financial penalties by the candidate or tenderer or contractor up to the value of that contract.

3. In order to reinforce the protection of the Union's financial interests, institutions may decide, in compliance with the principle of proportionality, to publish their decisions imposing administrative or financial penalties referred to in paragraph 1 after the procedure set out in paragraph 1 has been fully complied with.

The decision to publish a decision imposing administrative or financial penalties referred to in the first subparagraph shall take into account, in particular, the seriousness of the misconduct, including its impact on the Union's financial interests and image, the time which has elapsed since the misconduct took place, the duration and recurrence of the misconduct, the intention or degree of negligence of the entity concerned and the measures taken by the entity concerned to remedy the situation.

The decision on the publication shall be included in the decision imposing administrative or financial penalties and shall expressly provide for publication of the decision imposing penalties, or of a summary thereof, on the internet site of the institution.

In order to ensure a deterrent effect, the summary published shall include the name of the person responsible for the

misconduct, a short description of that misconduct, the programme concerned and the duration of the exclusion and/or the amount of the financial penalties.

The decision shall be published after the legal remedies against the decision have been exhausted or after the expiry of the deadlines for redress and the publication shall remain on the internet site until the end of the exclusion period or until 6 months after the payment of the financial penalties where these penalties constitute the sole measure decided.

Where natural persons are concerned, the decision to publish shall be taken with due consideration of the right to privacy and with due observance of the rights provided for in Regulation (EC) No 45/2001.

4. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on different administrative and financial penalties for tenderers or candidates who have made false declarations, have made substantial errors, have committed irregularities or fraud or have been found in serious breach of their contractual obligations.

1. Contracts shall be awarded on the basis of award criteria applicable to the content of the tender after the capability of economic operators not excluded under Articles 106, 107 and point (a) of Article 109(2) has been checked in accordance with the selection criteria contained in the documents relating to the call for tenders.

2. Contracts shall be awarded by the automatic award procedure or by the best-value-for-money procedure.

3. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning the specification of the selection criteria and the award criteria. Furthermore, the Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning the documents that give proof of economic and financial capacity and the evidence of technical and professional capacity and detailed rules on electronic auctions and abnormally low tenders.

*Article 111***Submission of tenders**

1. The arrangements for submitting tenders shall be such as to ensure that there is genuine competition and that the contents of tenders remain confidential until they are all opened simultaneously.

2. The Commission shall ensure by appropriate means and in application of Article 95 that tenderers may enter the contents of the tenders and any supporting evidence in an electronic format ("e-procurement").

The Commission shall report to the European Parliament and the Council on the progress of the implementation of this provision by 28 October 2014 and regularly afterwards.

3. If deemed appropriate and proportionate, the contracting authority may require tenderers to lodge a security in advance as a guarantee that the bids made will not be withdrawn.

4. With the exception of low value contracts, referred to in Article 104(3), applications and tenders shall be opened by an opening board appointed for this purpose. Any tender or application declared by the board not to satisfy the conditions laid down shall be rejected.

5. All requests to participate or tenders declared by the opening board as satisfying the conditions laid down shall be evaluated, on the basis of the criteria provided in the documents relating to the call for tenders, in order to propose to the contracting authority the award of the contract or to proceed with an electronic auction.

6. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the submission of tenders and the establishment of the time limits for receipt of tenders and requests to participate, the time allowed for access to invitation to tender documents and the time limits in urgent cases. Furthermore, the Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning the different methods of communication and detailed rules on the possibility of a tender guarantee, the opening of tenders, the requests to participate and the Committee for the evaluation of tenders and requests to participate.

Article 112

Principles of equal treatment and transparency

1. While the procurement procedure is under way, all contacts between the contracting authority and candidates or tenderers shall satisfy conditions ensuring transparency and equal treatment. They shall not lead to amendment of the conditions of the contract or the terms of the original tender.

2. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the principles of equal treatment and transparency. Furthermore, the Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning the contact that is allowed between contracting authorities and tenderers during the contract award procedure, the minimum requirements of the written record of an evaluation and the minimum details of the decision taken by the contracting authority.

Article 113

The award decision

1. The authorising officer shall decide to whom the contract is to be awarded, in compliance with the selection and award

criteria laid down in advance in the documents relating to the call for tenders and the procurement rules.

2. The contracting authority shall notify all candidates or tenderers whose applications or tenders are rejected of the grounds on which the decision was taken, as well as the duration of the standstill period referred to in Article 118(2). The contracting authority shall notify all tenderers who meet the exclusion and selection criteria, and who make a request in writing, of the characteristics and relative advantages of the successful tender and the name of the tenderer to whom the contract is awarded.

However, certain details need not be disclosed where disclosure would hinder application of the law, would be contrary to the public interest or would harm the legitimate business interests of public or private undertakings or could distort fair competition between those undertakings.

3. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the award decision and the signature and implementation of the contract.

Article 114

Cancellation of the procurement procedure

The contracting authority may, before the contract is signed, either abandon the procurement or cancel the award procedure without the candidates or tenderers being entitled to claim any compensation.

The decision shall be justified and be brought to the attention of the candidates or tenderers.

The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the cancellation of the procurement procedure.

Section 4

Guarantees and corrective action

Article 115

Guarantees

Other than in the case of low value contracts, the contracting authority may, if it deems it appropriate and proportionate on a case-by-case basis and subject to a risk-analysis, require contractors to lodge a guarantee in order to:

(a) ensure full performance of the contract, or

(b) limit the financial risks connected with payment of pre-financing.

The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules, including criteria for risk analysis, on the guarantees that are required from contractors.

Article 116

Errors, irregularities and fraud in the procedure

1. Where the award procedure proves to have been subject to substantial errors, irregularities or fraud, the contracting authority shall suspend the procedure and may take whatever measures are necessary, including the cancellation of the procedure.

Where, after the award of the contract, the award procedure or the performance of the contract prove to have been subject to substantial errors, irregularities or fraud, the contracting authority may, depending on the stage reached in the procedure, refrain from concluding the contract, suspend its performance or, where appropriate, terminate it.

Where those errors, irregularities or fraud are attributable to the contractor, the contracting authority may, in addition, refuse to make payments, recover amounts already paid or terminate all the contracts concluded with that contractor, in proportion to the seriousness of the errors, irregularities or fraud.

2. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the suspension of a contract in the event of errors, irregularities and fraud.

CHAPTER 2

Provisions applicable to contracts awarded by the institutions on their own account

Article 117

The contracting authority

1. The institutions shall be deemed to be contracting authorities in the case of contracts awarded on their own account. They shall delegate, in accordance with Article 65, the necessary powers for the exercise of the function of contracting authority.

2. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the delegation of the function of contracting authority, including the identification of the appropriate levels for the calculation of thresholds.

Article 118

Thresholds applicable

1. Subject to Title IV of Part Two, Directive 2004/18/EC lays down the thresholds which determine:

(a) the publication arrangements referred to in Article 103;

(b) the choice of procedures referred to in Article 104(1);

(c) the corresponding time limits.

2. Subject to exceptions and conditions to be specified in the delegated acts adopted pursuant to this Regulation, the contracting authority shall not, in the case of contracts covered by Directive 2004/18/EC, sign the contract or framework contract with the successful tenderer until a standstill period has elapsed.

3. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the thresholds applicable, separate contracts and contracts with lots, estimating the value of certain contracts, and the standstill period before the signature of the contract.

Article 119

Rules on participation in tendering procedures

1. Participation in tendering procedures shall be open on equal terms to all natural and legal persons coming within the scope of the Treaties and to all natural and legal persons in a third country which has a special agreement with the Union in the field of public procurement under the conditions laid down in that agreement.

The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the evidence to be provided in relation to access to contracts.

2. OLAF shall exercise the power conferred on the Commission by Council Regulation (Euratom, EC) No 2185/96 of 11 November 1996 concerning on-the-spot checks and inspections carried out by the Commission in order to protect the European Communities' financial interests against fraud and other irregularities⁽¹⁾ to carry out on-the-spot inspections and checks in the Member States and, in accordance with the cooperation and mutual assistance agreements in force, in third countries and on the premises of international organisations.

Article 120

Procurement rules of the World Trade Organisation

Where the Multilateral Agreement on Government Procurement concluded within the World Trade Organisation applies, the contracts shall also be open to nationals of the States which have ratified that agreement, under the conditions laid down therein.

TITLE VI

GRANTS

CHAPTER 1

Scope and form of grants

Article 121

Scope of grants

1. Grants are direct financial contributions, by way of donation, from the budget in order to finance any of the following:

- (a) an action intended to help achieve a Union policy objective;
- (b) the functioning of a body which pursues an aim of general Union interest or has an objective forming part of, and supporting, a Union policy ('operating grants').

Grants shall be covered either by a written agreement or by a Commission decision notified to the successful applicant of a grant.

The Commission may establish secure electronic systems for exchanges with the beneficiaries.

The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning the detailed specification of the scope of grants, and concerning rules determining whether grant agreements or grant decisions are to be used. Furthermore, the Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning details of the electronic exchange system, including the conditions under which documents submitted by means of such systems, including grant agreements, are to be deemed originals and to have been signed, and the use of framework partnerships.

2. The following do not constitute grants within the meaning of this Title:

- (a) expenditure on the members and staff of the institutions and contributions to the European schools;
- (b) public contracts as referred to in Article 101, aid paid as macro-financial assistance, and budget support;
- (c) financial instruments, as well as shareholdings or equity participation in international financial institutions such as the European Bank for Reconstruction and Development (EBRD) or specialised Union bodies such as the European Investment Fund;
- (d) contributions paid by the Union as subscriptions to bodies of which it is a member;

(e) expenditure implemented under shared management and indirect management within the meaning of Articles 58, 59 and 60, unless specified otherwise in the financial rules applicable to the budget of the entities or persons entrusted pursuant to point (c) of Article 58(1) or in delegation agreements;

(f) contributions to executive agencies referred to in Article 62, made by virtue of each agency's constitutive act;

(g) expenditure relating to fisheries markets as referred to in point (f) of Article 3(2) of Council Regulation (EC) No 1290/2005 of 21 June 2005 on the financing of the common agricultural policy ⁽¹⁾;

(h) repayment of travel and subsistence expenses incurred by, or where appropriate any other indemnities paid to, persons invited or mandated by the institutions;

(i) prizes given as rewards for a contest, to which Title VII of Part One applies.

3. Interest rate rebates and guarantee fee subsidies shall be treated as grants, provided that they are not combined in a single measure with financial instruments as referred to in Title VIII of Part One.

Such rebates and subsidies shall be subject to the provisions of this Title, with the exception of the following:

- (a) the co-financing principle as set out in Article 125(3);
- (b) the no-profit principle as set out in Article 125(4);
- (c) for actions where the objective is to reinforce the financial capacity of a beneficiary or to generate an income, the assessment of the financial capacity of the applicant as referred to in Article 132(1).

4. Each institution may award grants for communication activities where, for duly justified reasons, the use of public procurement procedures is not appropriate.

Article 122

Beneficiaries

1. Where several entities satisfy the criteria for being awarded a grant and together form one entity, that entity may be treated as the sole beneficiary, including where the entity is specifically established for the purpose of implementing the action to be financed by the grant.

⁽¹⁾ OJ L 209, 11.8.2005, p. 1.

2. For the purpose of this Title, the following entities shall be considered as entities affiliated to the beneficiary:

- (a) entities forming the beneficiary in accordance with paragraph 1;
- (b) entities that satisfy the eligibility criteria and that do not fall within one of the situations referred to in Article 131(4) and that have a link with the beneficiary, in particular a legal or capital link, which is neither limited to the action nor established for the sole purpose of its implementation.

3. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning the minimum content of grant agreements or decisions, in particular, where a grant is awarded to several entities, the specific obligations of the coordinator, if any, and of the other beneficiaries, the applicable responsibility regime and the conditions for adding or removing a beneficiary.

Article 123

Forms of grants

1. Grants may take any of the following forms:

- (a) reimbursement of a specified proportion of the eligible costs, referred to in Article 126, actually incurred;
- (b) reimbursement on the basis of unit costs;
- (c) lump sums;
- (d) flat-rate financing;
- (e) a combination of the forms referred to in points (a) to (d).

2. When determining the appropriate form of a grant, the potential beneficiaries' interests and accounting methods shall be taken into account to the greatest possible extent.

3. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning rules for the different forms of grants, including low value grants.

Article 124

Lump sums, unit costs and flat-rate financing

1. Without prejudice to the provisions of the basic act, the use of lump sums, unit costs or flat-rate financing shall be authorised by way of a Commission decision ensuring respect for the principle of equal treatment of beneficiaries for the same category of actions or work programmes.

Where the maximum amount per grant does not exceed the amount of a low value grant, the authorisation may be given by the authorising officer responsible.

2. The authorisation shall at least be supported by the following:

- (a) justification concerning the appropriateness of such forms of financing with regard to the nature of the supported actions or work programmes, as well as to the risks of irregularities and fraud and costs of control;
- (b) identification of the costs or categories of costs covered by lump sums, unit costs or flat-rate financing, which shall exclude ineligible costs under the applicable Union rules;
- (c) description of the methods for determining lump sums, unit costs or flat-rate financing, and of the conditions for reasonably ensuring that the no-profit and co-financing principles are complied with and that double financing of costs is avoided. Those methods shall be based on:
 - (i) statistical data or similar objective means; or
 - (ii) a beneficiary-by-beneficiary approach, by reference to certified or auditable historical data of the beneficiary or to its usual cost accounting practices.

3. Where recourse to the usual cost accounting practices of the beneficiary is authorised, the authorising officer responsible may assess compliance of those practices *ex ante* with the conditions set out in paragraph 2 or through an appropriate strategy for *ex post* controls.

If the compliance of the beneficiary's usual cost accounting practices with the conditions referred to in paragraph 2 has been established *ex ante*, the amounts of lump sums, unit costs or flat-rate financing determined by application of those practices shall not be challenged by *ex post* controls.

The authorising officer responsible may consider that the usual cost accounting practices of the beneficiary are compliant with the conditions referred to in paragraph 2 if they are accepted by national authorities under comparable funding schemes.

4. The grant decision or agreement may authorise or impose, in the form of flat-rates, funding of the beneficiary's indirect costs up to a maximum of 7 % of total eligible direct costs for the action, except where the beneficiary is in receipt of an operating grant financed from the budget. The 7 % ceiling may be exceeded on the basis of a reasoned decision of the Commission.

5. SME owners and other natural persons who do not receive a salary may declare eligible personnel costs for the work carried out under an action or work programme, on the basis of unit costs determined by way of a Commission decision.

6. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules regarding lump sums, unit costs and flat-rate financing.

CHAPTER 2

Principles

Article 125

General principles applicable to grants

1. Grants shall be subject to the principles of transparency and equal treatment.

2. Without prejudice to Article 130, grants shall not be cumulative or awarded retrospectively.

3. Grants shall involve co-financing without prejudice to the specific rules laid down in Title IV of Part Two.

Unless otherwise specified in this Regulation, the regulations governing political parties at European level and the rules regarding their funding are laid down in Regulation (EC) No 2004/2003 of the European Parliament and of the Council of 4 November 2003 on the regulations governing political parties at European level and the rules regarding their funding ⁽¹⁾.

4. Grants shall not have the purpose or effect of producing a profit within the framework of the action or the work programme of the beneficiary ('no-profit principle').

The first subparagraph shall not apply to:

- (a) actions the objective of which is the reinforcement of the financial capacity of a beneficiary, or actions which generate an income to ensure their continuity after the period of Union financing provided for in the grant decision or agreement;
- (b) study, research or training scholarships paid to natural persons;
- (c) other direct support paid to natural persons most in need, such as unemployed persons and refugees;
- (d) grants based on flat rates and/or lump sums and/or unit costs where these comply with the conditions set out in Article 124(2);
- (e) low value grants.

Where a profit is made, the Commission shall be entitled to recover the percentage of the profit corresponding to the Union contribution to the eligible costs actually incurred by the beneficiary to carry out the action or work programme.

5. For the purpose of this Title, profit shall be defined as a surplus of the receipts over the eligible costs incurred by the beneficiary, when the request is made for payment of the balance.

The receipts referred to in the first subparagraph shall be limited to income generated by the action or work programme, as well as financial contributions specifically assigned by donors to the financing of the eligible costs.

In the case of an operating grant, amounts dedicated to the building up of reserves shall not be taken into account for the purpose of verifying compliance with the no-profit principle.

6. If a political party at Union level realises a surplus of income over expenditure at the end of a financial year in which it received an operating grant, the part of that surplus corresponding to up to 25 % of the total income for that year may, by derogation from the no-profit principle laid down in paragraph 4, be carried over to the following year provided that it is used before the end of the first quarter of that following year.

For the purpose of verifying compliance with the no-profit principle, the own resources, in particular donations and membership fees, aggregated in the annual operations of a political party at Union level, which exceed 15 % of the eligible costs to be borne by the beneficiary, shall not be taken into account.

The second subparagraph shall not apply if the financial reserves of a political party at Union level exceed 100 % of its average annual income.

7. Grants may be awarded without a call for proposals to the EIB or the European Investment Fund for actions of technical assistance. In such cases Articles 131(2) to (5) and 132(1) shall not apply.

8. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 complementing the general principles applicable to grants, including the no-profit principle and the co-financing principle. Furthermore, the Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning the definition of technical assistance.

Article 126

Eligible costs

1. Grants shall not exceed an overall ceiling expressed in terms of an absolute value which shall be established on the basis of estimated eligible costs.

⁽¹⁾ OJ L 297, 15.11.2003, p. 1.

Grants shall not exceed the eligible costs.

2. Eligible costs are costs actually incurred by the beneficiary of a grant which meet all of the following criteria:

- (a) they are incurred during the duration of the action or of the work programme, with the exception of costs relating to final reports and audit certificates;
- (b) they are indicated in the estimated overall budget of the action or work programme;
- (c) they are necessary for the implementation of the action or of the work programme which is the subject of the grant;
- (d) they are identifiable and verifiable, in particular being recorded in the accounting records of the beneficiary and determined according to the applicable accounting standards of the country where the beneficiary is established and according to the usual cost accounting practices of the beneficiary;
- (e) they comply with the requirements of applicable tax and social legislation;
- (f) they are reasonable, justified, and comply with the principle of sound financial management, in particular regarding economy and efficiency.

3. Calls for proposals shall specify the categories of costs considered as eligible for Union funding.

Without prejudice to the basic act and in addition to paragraph 2, the following categories of costs shall be eligible where the authorising officer responsible has declared them as such under the call for proposals:

- (a) costs relating to a pre-financing guarantee lodged by the beneficiary of the grant, where that guarantee is required by the authorising officer responsible pursuant to Article 134(1);
- (b) costs relating to external audits where such audits are required in support of the requests for payments by the authorising officer responsible;
- (c) value added tax ("VAT") where it is not recoverable under the applicable national VAT legislation and is paid by a beneficiary other than a non-taxable person as defined in the first subparagraph of Article 13(1) of Council Directive 2006/112/EC of 28 November 2006 on the common system of value added tax ⁽¹⁾;
- (d) depreciation costs, provided they are actually incurred by the beneficiary;

- (e) salary costs of the personnel of national administrations to the extent that they relate to the cost of activities which the relevant public authority would not carry out if the project concerned were not undertaken.

4. Costs incurred by entities affiliated to a beneficiary as described in Article 122 may be accepted as eligible by the authorising officer responsible under the call for proposals. In such a case, the following conditions shall apply cumulatively:

- (a) the entities concerned are identified in the grant agreement or decision;
- (b) the entities concerned abide by the rules applicable to the beneficiary under the grant agreement or decision with regard to eligibility of costs and rights of checks and audits by the Commission, OLAF and the Court of Auditors.

5. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning further specifications on eligible costs.

Article 127

Co-financing in kind

1. For the purpose of calculating the profit generated by the grant, co-financing in the form of contributions in kind shall not be taken into account.

2. The authorising officer responsible may accept contributions in kind as co-financing, if considered necessary or appropriate. Where co-financing in kind is offered in support of low value grants and the authorising officer responsible has decided to refuse this, he or she shall justify why it is unnecessary or inappropriate.

Such contributions shall not exceed:

- (a) either the costs actually incurred by third parties and duly supported by accounting documents;
- (b) or, in the absence of such documents, the costs that correspond to those generally accepted on the market in question.

Contributions in kind shall be presented separately in the estimated budget to reflect the total resources allocated to the action. Their unit value shall be evaluated in the provisional budget and shall not be subject to subsequent changes.

Contributions in kind shall comply with national tax and social security rules.

⁽¹⁾ OJ L 347, 11.12.2006, p. 1.

*Article 128***Transparency**

1. Grants shall be subject to a work programme, to be published prior to its implementation.

That work programme shall be implemented through the publication of calls for proposals, except in duly justified exceptional cases of urgency or where the characteristics of the beneficiary or of the action leave no other choice for a given action, or where the beneficiary is identified in a basic act.

The first subparagraph shall not apply to crisis management aid, civil protection operations or humanitarian aid operations.

2. Calls for proposals shall specify the planned date by which all applicants shall have been informed of the outcome of the evaluation of their application and the indicative date for the signature of grant agreements or notification of grant decisions.

Those dates shall be fixed on the basis of the following periods:

- (a) for informing all applicants of the outcome of the evaluation of their application, a maximum of six months from the final date for submission of complete proposals;
- (b) for signing grant agreements with applicants or notifying grant decisions to them, a maximum of three months from the date of informing applicants they have been successful.

Those periods may be adjusted in order to take into account any time needed to comply with specific procedures that may be required by the basic act in accordance with Regulation (EU) No 182/2011 of the European Parliament and of the Council ⁽¹⁾ and may be exceeded in exceptional, duly justified cases, in particular for complex actions, where there is a large number of proposals or delays attributable to the applicants.

The authorising officer by delegation shall report in his or her annual activity report on the average time taken to inform applicants, sign grant agreements or notify grant decisions. In the event of the periods referred to in the second subparagraph being exceeded, the authorising officer by delegation shall give reasons and, where not duly justified in accordance with the third subparagraph, shall propose remedial action.

3. All grants awarded in the course of a financial year shall be published annually in accordance with Article 35(2) and (3).

4. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on

the requirements regarding the work programme, the content of calls for proposals, the exceptions to calls for proposals, information for applicants and *ex post* publication.

*Article 129***Principle of non-cumulative award**

1. Each action may give rise to the award of only one grant from the budget to any one beneficiary, except where otherwise authorised in the relevant basic acts.

A beneficiary may be awarded only one operating grant from the budget per financial year.

The applicant shall immediately inform the authorising officers of any multiple applications and multiple grants relating to the same action or to the same work programme.

In no circumstances shall the same costs be financed twice by the budget.

2. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the principle of the non-cumulative award of grants.

*Article 130***Principle of non-retroactivity**

1. A grant may be awarded for an action which has already begun provided that the applicant can demonstrate the need for starting the action prior to signature of the grant agreement or notification of the grant decision.

In such cases, costs eligible for financing shall not have been incurred prior to the date of submission of the grant application, except in duly justified exceptional cases as provided for in the basic act or in the event of extreme urgency for crisis management aid, civil protection operations and humanitarian aid operations, or in situations of imminent or immediate danger threatening to escalate into armed conflict or to destabilise a country, whereby an early engagement by the Union would be of major importance in promoting conflict prevention.

No grant may be awarded retroactively for actions already completed.

The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the principle of non-retroactivity.

2. In the case of operating grants, the grant agreement shall be signed or notification of the grant decision given within six months of the start of the beneficiary's financial year. Costs eligible for financing may neither have been incurred before the grant application was submitted nor before the start of the beneficiary's financial year.

⁽¹⁾ OJ L 55, 28.2.2011, p. 13.

CHAPTER 3

Award procedure

Article 131

Applications for grants

1. Grant applications shall be submitted in writing, including, where appropriate, in a secure electronic format.

The Commission shall provide, where it deems it feasible, the possibility of making online grant applications.

2. Grant applications shall be eligible if submitted by the following:

(a) legal persons; or

(b) natural persons, in so far as this is required by the nature or characteristics of the action or the objective pursued by the applicant.

For the purposes of point (a) of the first subparagraph, grant applications may be eligible if submitted by entities which do not have legal personality under the applicable national law, provided that their representatives have the capacity to undertake legal obligations on behalf of the entity and offer guarantees for the protection of the Union's financial interests equivalent to those offered by legal persons.

3. The application shall state the legal status of the applicant and demonstrate his or her financial and operational capacity to carry out the proposed action or work programme.

For that purpose the applicant shall submit a declaration on his or her honour and, unless the grant is a low value grant, any supporting documents requested, on the basis of a risk assessment, by the authorising officer responsible. The prerequisite documents shall be indicated in the call for proposals.

The verification of financial capacity shall not apply to natural persons in receipt of scholarships, to natural persons most in need and in receipt of direct support, to public bodies or international organisations. The authorising officer responsible may, depending on a risk assessment, waive the obligation to verify the operational capacity of public bodies or international organisations.

4. Article 106(1) and Articles 107, 108 and 109 shall also apply to grant applicants. Applicants shall certify that they are not in one of the situations referred to in those Articles. However, the authorising officer responsible shall not require such certification in the following cases:

(a) low value grants;

(b) when such certification has recently been provided in another award procedure.

5. Administrative and financial penalties which are effective, proportionate and dissuasive may be imposed on applicants by the authorising officer responsible, in accordance with Article 109.

Those penalties may also be imposed on beneficiaries who at the moment of the submission of the application or during the implementation of the grant, have made false declarations in supplying the information required by the authorising officer responsible or fail to supply that information.

6. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the arrangements for grant applications, evidence of not falling within an exclusion situation, applicants without legal personality, legal persons forming one applicant, financial and administrative penalties, eligibility criteria and low value grants.

Article 132

Selection and award criteria

1. The selection criteria announced in advance in the call for proposals shall be such as to make it possible to assess the applicant's ability to complete the proposed action or work programme.

2. The award criteria announced in advance in the call for proposals shall be such as to make it possible to assess the quality of the proposals submitted in the light of the objectives and priorities set.

3. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on selection and award criteria.

Article 133

Evaluation procedure

1. Proposals shall be evaluated, on the basis of pre-announced selection and award criteria, with a view to determining which proposals may be financed.

2. The authorising officer responsible shall, on the basis of the evaluation provided for in paragraph 1, draw up the list of beneficiaries and the amounts approved.

3. The authorising officer responsible shall inform applicants in writing of the decision on their application. If the grant requested is not awarded, the institution concerned shall give the reasons for the rejection of the application, with reference in particular to the selection and award criteria.

4. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the evaluation and award of grants and information to applicants.

CHAPTER 4

Payment and control

Article 134

Pre-financing guarantee

1. The authorising officer responsible may, if he or she deems it appropriate and proportionate, on a case-by-case basis and subject to risk analysis, require the beneficiary to lodge a guarantee in advance in order to limit the financial risks connected with the payment of pre-financing.

2. Notwithstanding paragraph 1, guarantees shall not be required in the case of low value grants.

3. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the pre-financing guarantee.

Article 135

Payment of grants and controls

1. The amount of the grant shall not become final until after the authorising officer responsible has approved the final reports and accounts, without prejudice to subsequent checks by the institution concerned, which shall be carried out in a timely manner.

2. Where the award procedure proves to have been subject to substantial errors, irregularities or fraud, the authorising officer responsible shall suspend the procedure and may take whatever measures are necessary, including the cancellation of the procedure. The authorising officer responsible shall inform OLAF immediately of suspected cases of fraud.

3. Where, after the award of the grant, the award procedure or the implementation of the grant proves to have been subject to substantial errors, irregularities, fraud, or breach of obligations, the authorising officer responsible may, depending on the stage reached in the procedure and, provided that the applicant or beneficiary has been given the opportunity to make observations:

- (a) refuse to sign the grant agreement or to give notification of the grant decision;
- (b) suspend implementation of the grant; or
- (c) where appropriate, terminate the grant agreement or decision.

4. Where such errors, irregularities or fraud are attributable to the beneficiary, or should the beneficiary breach his or her obligations under a grant agreement or decision, the authorising officer responsible may, in addition, reduce the grant or recover amounts unduly paid under the grant agreement or decision, in proportion to the seriousness of the errors, irregularities or fraud or of the breach of obligations, provided that the beneficiary has been given the opportunity to make observations.

5. Where controls or audits demonstrate systemic or recurrent errors, irregularities, fraud or breach of obligations attributable to the beneficiary and having a material impact on a number of grants awarded to that beneficiary under similar conditions, the authorising officer responsible may suspend implementation of all the grants concerned or, where appropriate, terminate the concerned grant agreements or decisions with that beneficiary, in proportion to the seriousness of the errors, irregularities, fraud or of the breach of obligations, provided that the beneficiary has been given the opportunity to make observations.

The authorising officer responsible may, in addition, following an adversarial procedure, reduce the grants or recover amounts unduly paid in respect of all the grants affected by the systemic or recurrent errors, irregularities, fraud or breach of obligations referred to in the first subparagraph that may be audited in accordance with the grant agreements or decisions.

6. The authorising officer responsible shall determine the amounts to be reduced or recovered, wherever possible and practicable, on the basis of costs unduly declared as eligible for each grant concerned, following acceptance of the revised financial statements submitted by the beneficiary.

7. Where it is not possible or practicable to quantify precisely the amount of ineligible costs for each grant concerned, the amounts to be reduced or recovered may be determined by extrapolating the reduction or recovery rate applied to the grants for which the systemic or recurrent errors or irregularities have been demonstrated, or, where ineligible costs cannot serve as a basis for determining the amounts to be reduced or recovered, by applying a flat rate, having regard to the principle of proportionality. The beneficiary shall be given the opportunity to make observations on the extrapolation method or flat rate to be applied and to propose a duly substantiated alternative method or rate before the reduction or recovery is made.

8. The Commission shall ensure equal treatment of beneficiaries of a programme, in particular where it is implemented by several authorising officers responsible.

4. The amount of the prize shall not be linked to costs incurred by the winner.

5. Where implementation of an action or work programme requires prizes to be given to third parties by a beneficiary of a Union grant, that beneficiary may give such prizes provided that the minimum content of the rules of the contest, as laid down in paragraph 2, is strictly defined in the grant decision or agreement between the beneficiary and the Commission, with no margin for discretion.

FINANCIAL INSTRUMENTS

Article 139

Scope

1. Financial instruments shall be authorised by means of a basic act.

Notwithstanding the first subparagraph, financial instruments may be established, in duly justified cases, without being authorised by means of a basic act, provided that such instruments are included in the budget in accordance with point (e) of Article 49(1).

2. Where Union support is provided by means of financial instruments and combined in a single measure with elements directly related to financial instruments targeting the same final recipients, including technical assistance, interest rate rebates and guarantee fee subsidies, this Title shall apply to all elements of that measure.

3. Where financial instruments are combined with grants funded from the budget under Title VI of Part One for elements not directly related to financial instruments, separate records shall be maintained for each source of financing.

4. The Commission may implement financial instruments under direct management, or under indirect management, as set out in the basic act, by entrusting tasks to entities pursuant to points (ii), (iii), (v) and (vi) of Article 58(1)(c).

The entities entrusted pursuant to points (ii), (iii), (v) and (vi) of Article 58(1)(c), when implementing financial instruments, may further entrust, under their responsibility, part of that implementation to financial intermediaries provided that those entities ensure that the financial intermediaries satisfy the criteria laid down in Article 140(1), (3) and (5). Financial intermediaries shall be selected on the basis of open, transparent, proportionate and non-discriminatory procedures, avoiding conflicts of interests.

The Commission shall remain responsible for ensuring that the implementation framework for financial instruments complies with the principle of sound financial management and supports the attainment of defined and timed policy objectives, measurable in terms of outputs and results. The Commission shall be accountable for the implementation of financial instruments without prejudice to the entrusted entities' legal and contractual responsibility in accordance with the applicable law.

5. Where financial instruments are implemented under shared management with Member States, the provisions applying to those instruments, including rules for contributions to financial instruments managed directly or indirectly in accordance with this Title, shall be laid down in the Regulations referred to in Article 175.

6. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on financial instruments, including the selection of entities entrusted with the implementation of financial instruments, the content of delegation agreements, management costs and fees, the specific rules for fiduciary accounts, the direct implementation of the financial instruments and the selection of managers, of financial intermediaries and of final recipients.

Article 140

Principles and conditions applicable to financial instruments

1. Financial instruments shall be used in accordance with the principles of sound financial management, transparency, proportionality, non-discrimination, equal treatment and subsidiarity, and in accordance with their objectives and, where applicable, the duration established in the basic act for those financial instruments.

2. Financial instruments shall comply with the following:

- (a) addressing market failures or sub-optimal investment situations, which have proven to be financially viable but do not give rise to sufficient funding from market sources;
- (b) additionality: financial instruments shall not be aimed at replacing those of a Member State, private funding or another Union financial intervention;
- (c) non-distortion of competition in the internal market and consistency with State aid rules;
- (d) leverage effect: the Union contribution to a financial instrument shall aim at mobilising a global investment exceeding the size of the Union contribution according to the indicators defined in advance;
- (e) alignment of interest: when implementing financial instruments, the Commission shall ensure that there is a common interest in achieving the policy objectives defined for a financial instrument, possibly fostered by provisions such as co-investment, risk-sharing requirements or financial incentives, while preventing a conflict of interests with other activities of the entrusted entity;
- (f) financial instruments shall be established on the basis of an *ex ante* evaluation, including an evaluation of the possible re-use of additional resources referred to in point (f) of paragraph 8.

3. The budgetary expenditure linked to a financial instrument and the financial liability of the Union shall in no case exceed the amount of the relevant budgetary commitment made for it, thus excluding contingent liabilities for the budget.

4. The entities entrusted pursuant to points (ii), (iii), (v) and (vi) of Article 58(1)(c) and all financial intermediaries selected to participate in the execution of financial operations under a financial instrument shall comply with relevant standards and applicable legislation on the prevention of money laundering, the fight against terrorism and tax fraud. For the implementation of financial instruments in accordance with this Title, the entities entrusted pursuant to points (ii), (iii), (v) and (vi) of Article 58(1)(c) shall not be established, and shall not maintain business relations with entities incorporated, in territories whose jurisdictions do not co-operate with the Union in relation to the application of the internationally agreed tax standard and shall transpose such requirements in their contracts with the selected financial intermediaries.

6. Amounts corresponding at least to the Union contribution, or, where applicable, multiples thereof shall be used for the attainment of the specific policy objectives pursued through the financial instrument and shall not generate undue advantages, in particular in the form of undue dividends or profits for third parties.

Without prejudice to sector-specific rules for shared management, revenues, including dividends, capital gains, guarantee fees and interest on loans and on amounts on fiduciary accounts paid back to the Commission or fiduciary accounts opened for financial instruments and attributable to the support from the budget under a financial instrument, shall be entered in the budget after deduction of management costs and fees.

7. Payments to fiduciary accounts shall be made by the Commission on the basis of payment requests that are duly substantiated with disbursement forecasts, taking into account

the balances available on the fiduciary accounts and the need to avoid excessive balances on such amounts. In the event of the amounts on the fiduciary accounts being sufficient to cover the contractually stipulated minimum reserve on the fiduciary accounts, as increased by the disbursement forecasts for the current financial year, and to cover the amounts needed to exclude contingent liabilities in relation to payment obligations in currencies other than euro, no further payment to the fiduciary accounts shall be made. Disbursement forecasts are to be provided on an annual or, where appropriate, on a semi-annual basis.

8. The Commission shall report annually to the European Parliament and the Council on the activities relating to financial instruments. The report shall include, for each financial instrument supported:

In the event of the winding down of the financial instrument, any new repayments of that instrument pursuant to the third subparagraph of paragraph 6 shall be considered as general revenue.

10. The purpose of the financial instruments and, where applicable, their specific legal form and legal place of registration shall be published on the Commission website.

Article 198

1. Each interinstitutional European office shall draw up analytical accounts of its expenditure, enabling the proportion of its services supplied to each of the institutions to be determined. The Director of the European office concerned shall adopt, after approval by its Management Committee, the criteria on which the accounting system shall be based.

2. The remarks concerning the specific budget line in which the total appropriation for each interinstitutional European office is entered shall show an estimate of the cost of services

supplied by that office to each of the institutions. This shall be based on the analytical accounts provided for in paragraph 1.

3. Each interinstitutional European office shall notify the institutions concerned of the results of the analytical accounts.

Article 199

Delegation of authorising officer powers for interinstitutional European offices

1. Each institution may delegate authorising officer powers to the director of an interinstitutional European office for the management of appropriations entered in its section and shall set the limits and conditions for this delegation of powers.

The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the delegation of authorising officer powers to the director of an interinstitutional European office.

2. The internal auditor of the Commission shall exercise all responsibilities laid down in Chapter 9 of Title IV of Part One.

Article 200

TITLE VI

ADMINISTRATIVE APPROPRIATIONS

Article 201

General provisions

1. Parts One and Three shall apply to administrative appropriations, except as otherwise provided in this Title.

2. The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on the scope of administrative appropriations and rent guarantees.

Article 202

Commitments

1. As from 15 October of each year, routine administrative expenditure may be committed in advance against the appropriations provided for the following financial year. Such commitments shall not, however, exceed one quarter of the appropriations decided by the European Parliament and the Council on the corresponding budget line for the current financial year. They shall not apply to new expenditure of a kind not yet approved in principle in the last budget duly adopted.

2. Expenditure which shall be paid in advance pursuant to legal or contractual provisions, for example rents, may give rise to payments from 1 December onwards to be charged to the appropriations for the following financial year. In this case, the limit referred to in paragraph 1 shall not apply.

Article 203

Specific provisions regarding administrative appropriations

1. Administrative appropriations shall be non-differentiated appropriations.

The Commission shall be empowered to adopt delegated acts in accordance with Article 210 concerning detailed rules on specific administrative appropriations, including buildings and advances to staff members of the institutions.

2. Administrative expenditure arising from contracts covering periods that extend beyond the financial year, either in accordance with local practice or relating to the supply of equipment, shall be charged to the budget of the financial year in which it is effected.

3. Each institution shall provide the European Parliament and the Council, by 1 June each year, with a working document on its building policy, which shall incorporate the following information:

- (a) for each building, the expenditure and surface area covered by the appropriations of the corresponding budget lines;
- (b) the expected evolution of the global programming of surface area and locations for the coming years with a description of the building projects in planning phase which are already identified;
- (c) the final terms and costs, as well as relevant information regarding project implementation of new building projects previously submitted to the European Parliament and the Council under the procedure established in paragraphs (4) and (5) and not included in the preceding year's working documents.

4. For any building project likely to have significant financial implications for the budget, the institution shall inform the European Parliament and the Council as early as possible about the building surface area required and provisional planning before any prospecting of the local market takes place, in the case of building contracts, or before invitations to tender are issued, in the case of building works.

5. For any building project likely to have significant financial implications for the budget, the institution shall present the building project, including its detailed estimated costs and its financing, as well as a list of draft contracts intended to be used, and shall request the approval of the European Parliament and the Council before contracts are concluded. At the request of the institution, documents submitted relating to the building project shall be treated confidentially.

Except in cases of *force majeure*, the European Parliament and the Council shall deliberate upon the building project within four weeks of its receipt by both institutions.

The building project shall be deemed approved at the expiry of this four-week period, unless the European Parliament or the Council take a decision contrary to the proposal within that period of time.

If the European Parliament and/or the Council raise duly justified concerns within that four-week period, that period shall be extended once by two weeks.

If the European Parliament or the Council take a decision contrary to the building project, the institution concerned shall withdraw its proposal and may submit a new one.

6. In cases of *force majeure*, the information provided for in paragraph 4 may be submitted jointly with the building project. The European Parliament and the Council shall deliberate upon the building project within 2 weeks of its receipt by both institutions. The building project shall be deemed to be approved at the expiry of this two-week period, unless the European Parliament and/or the Council take a decision contrary to the proposal within this period of time.

7. The following shall be considered as building projects likely to have significant financial implications for the budget:

- (i) any acquisition of land;
- (ii) the acquisition, sale, structural renovation, construction of buildings or any project combining these elements to be implemented in the same timeframe, exceeding EUR 3 000 000;
- (iii) any new building contract (including usufructs, long-term leases and renewals of existing building contracts under less favourable conditions) not covered by point (ii) with an annual charge of at least EUR 750 000;
- (iv) the extension or renewal of existing building contracts (including usufruct and long-term leases) under the same or more favourable conditions, with an annual charge of at least EUR 3 000 000.

This paragraph shall also apply to building projects which have an interinstitutional nature, as well as to Union delegations.

8. Without prejudice to Article 17, a building acquisition project may be financed through a loan, subject to prior approval by the European Parliament and the Council.

Loans shall be contracted and repaid in accordance with the principle of sound financial management and with due regard to the best financial interest of the Union.

When the institution proposes to finance the acquisition through a loan, the financing plan to be submitted, together with the request for prior approval by the institution concerned, shall specify in particular, the maximum level of financing, the financing period, the type of financing, the financing conditions and savings compared to other types of contractual arrangements.

The European Parliament and the Council shall deliberate upon the request for prior approval within four weeks, extendable once by two weeks, of its receipt by both institutions. The acquisition through a loan shall be deemed to be rejected if the European Parliament and the Council do not expressly approve it within the deadline.

grant applications, projects and tenders, and for providing opinions and advice in specific cases.

Such experts shall be remunerated on the basis of a fixed amount announced in advance and shall be chosen on the basis of their professional capacity.
